

POCKETLINK

SUPPLY CHAIN - LIVE!

What's new

FEBRUARY 2023

What is new in our solutions, new added features and more

ASKI SFA

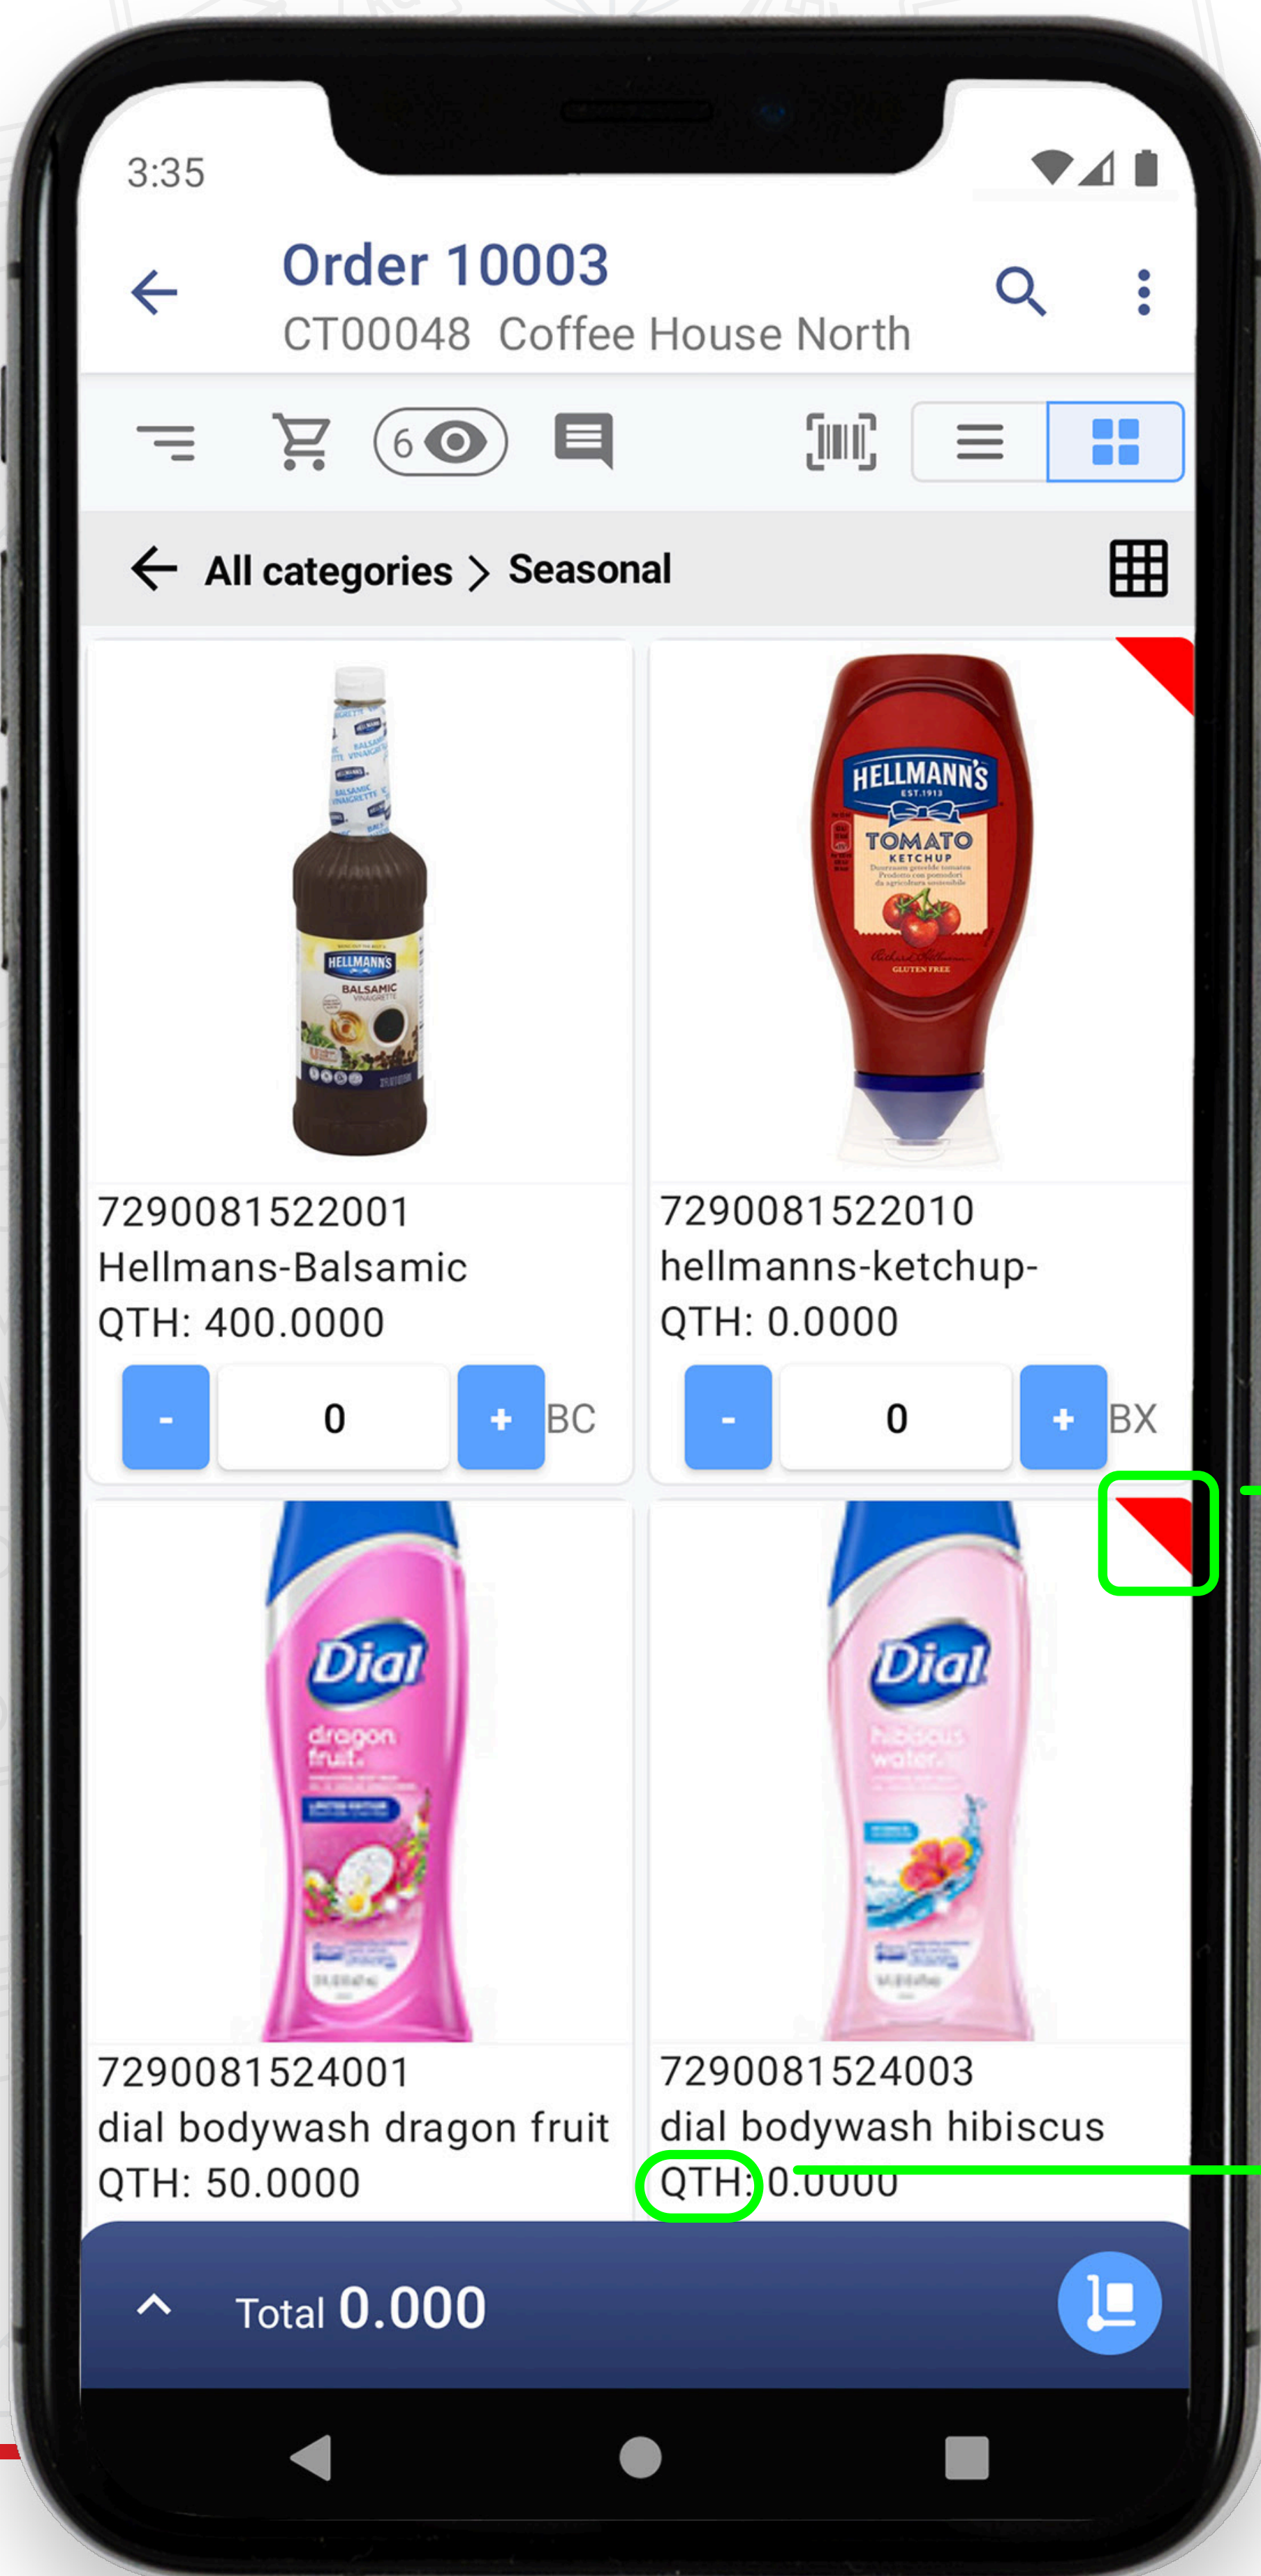

WHAT'S NEW IN THE SYSTEM

FEBRUARY 2023

Enabling new features requires the latest version.
Implementation may require billable professional services

For Details: support@pocketlink.co.il

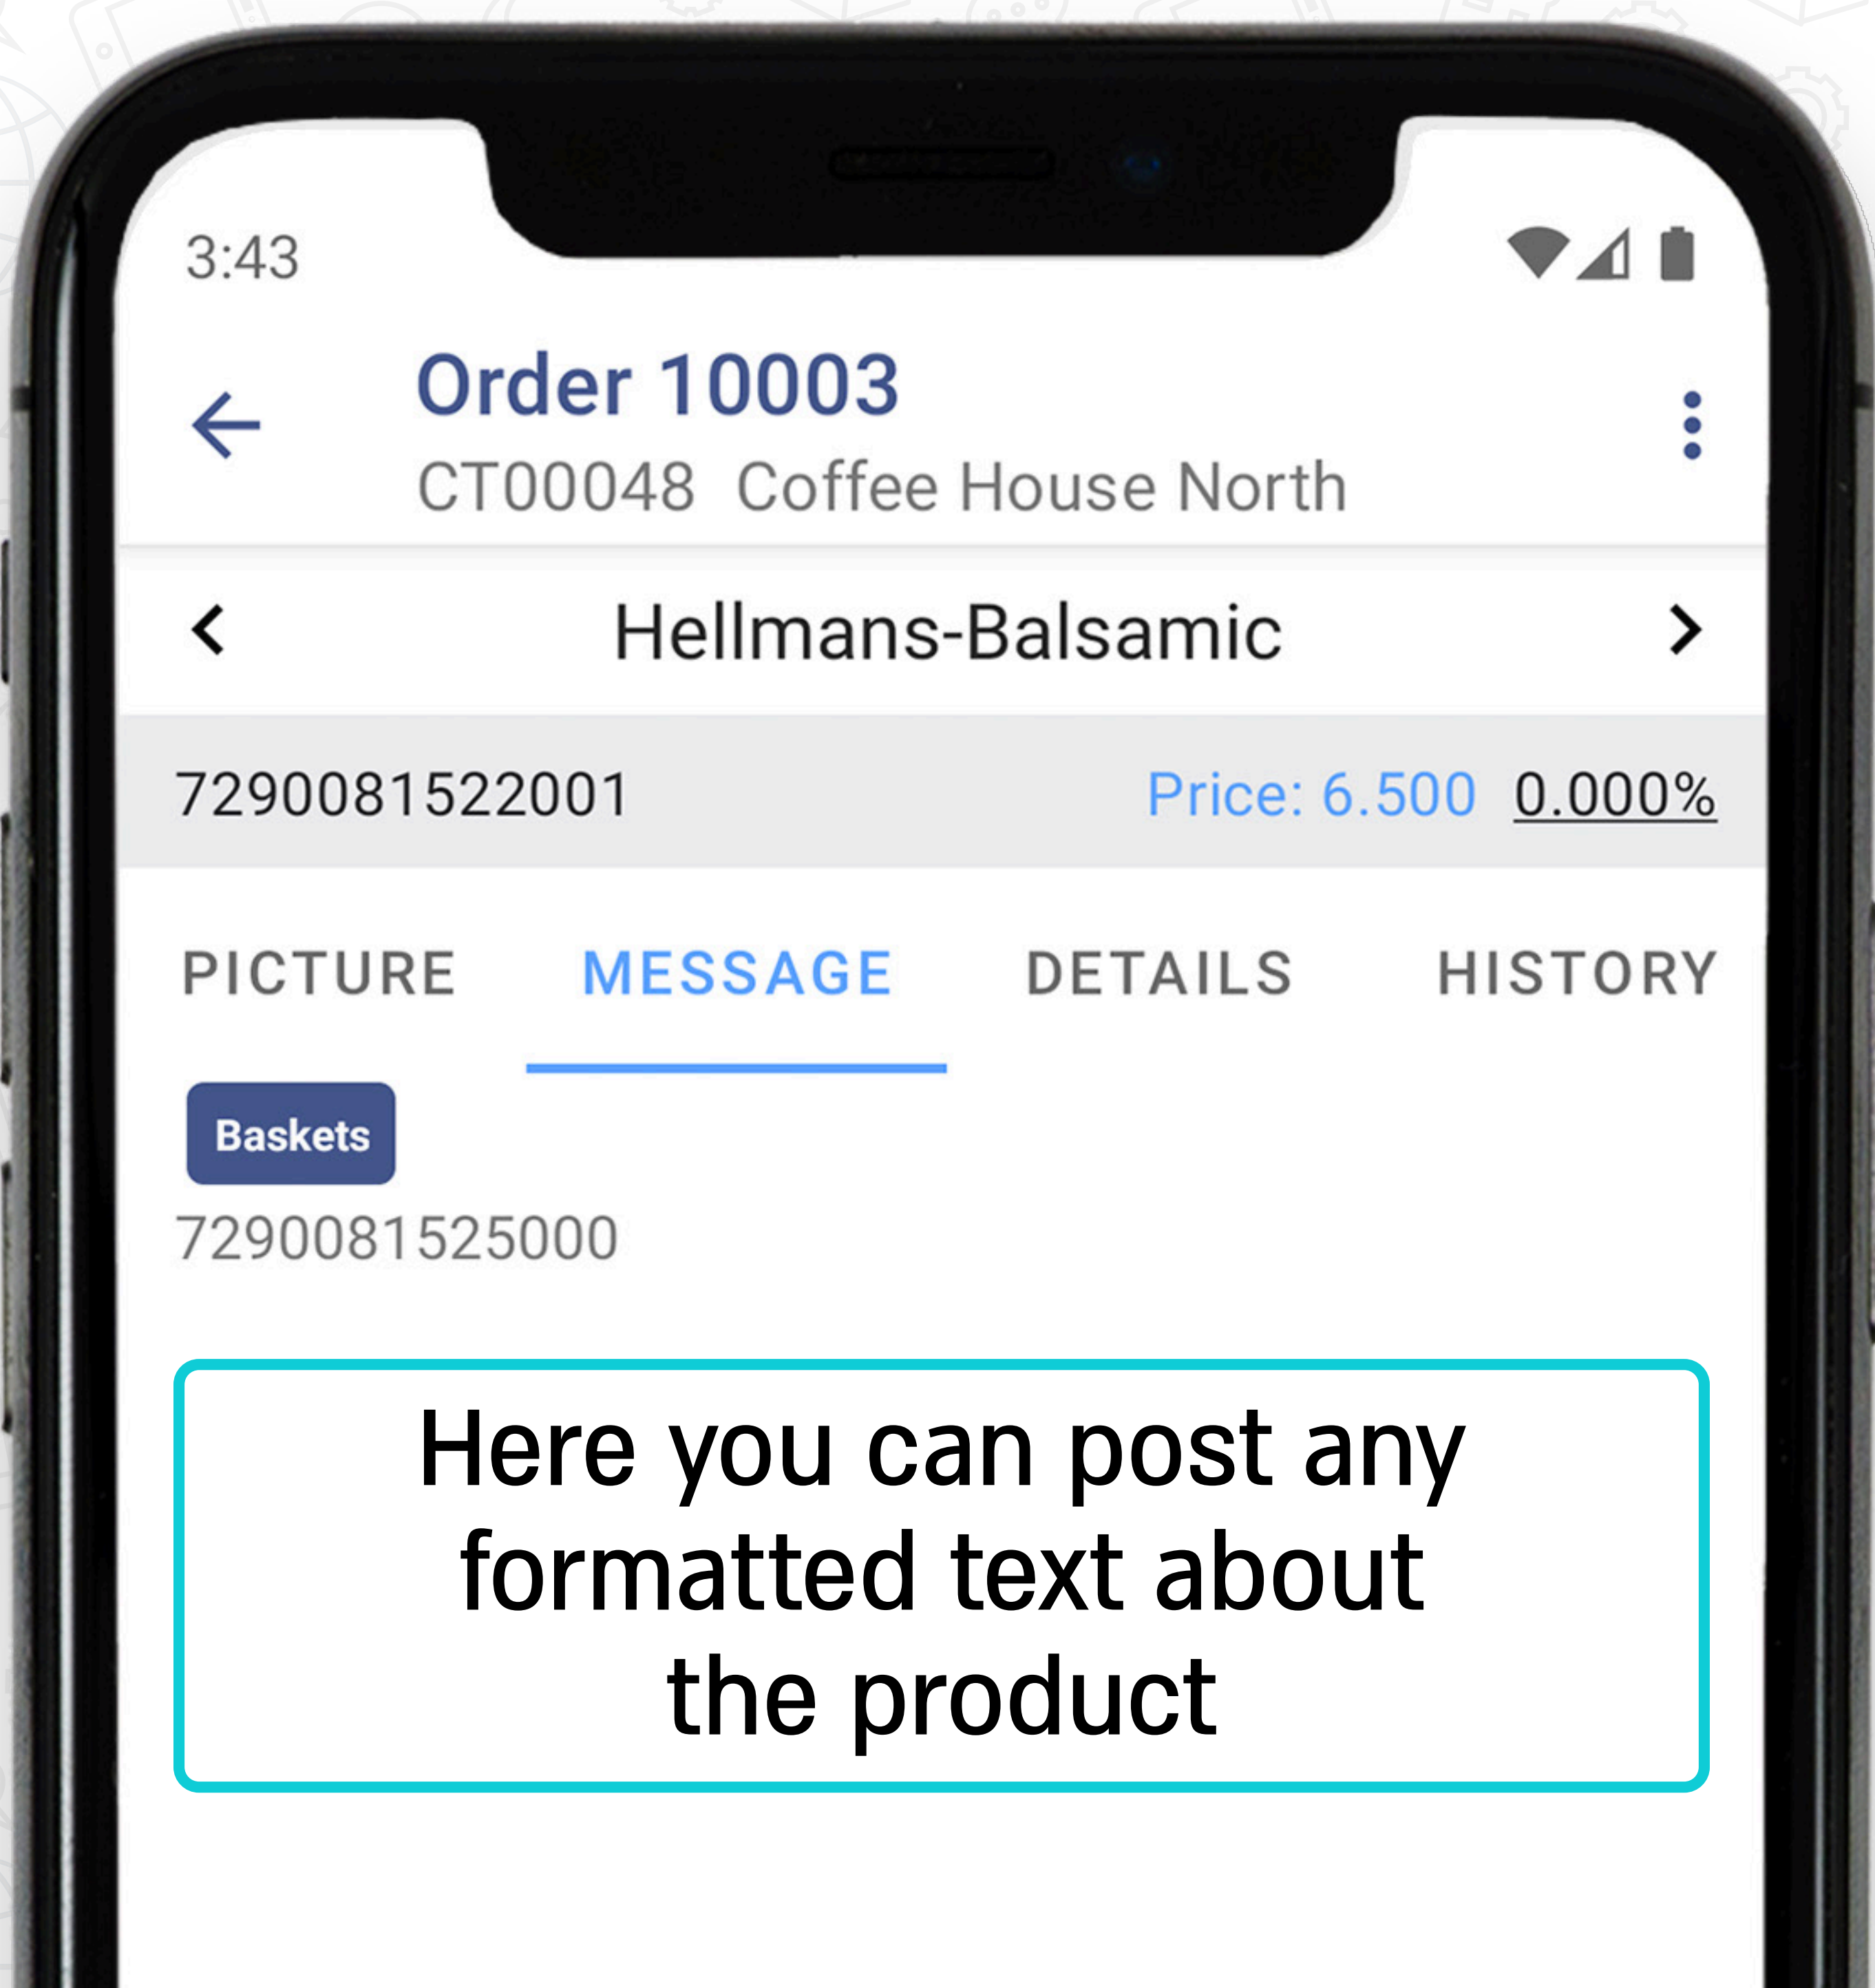

Color tag customization

Stock Display

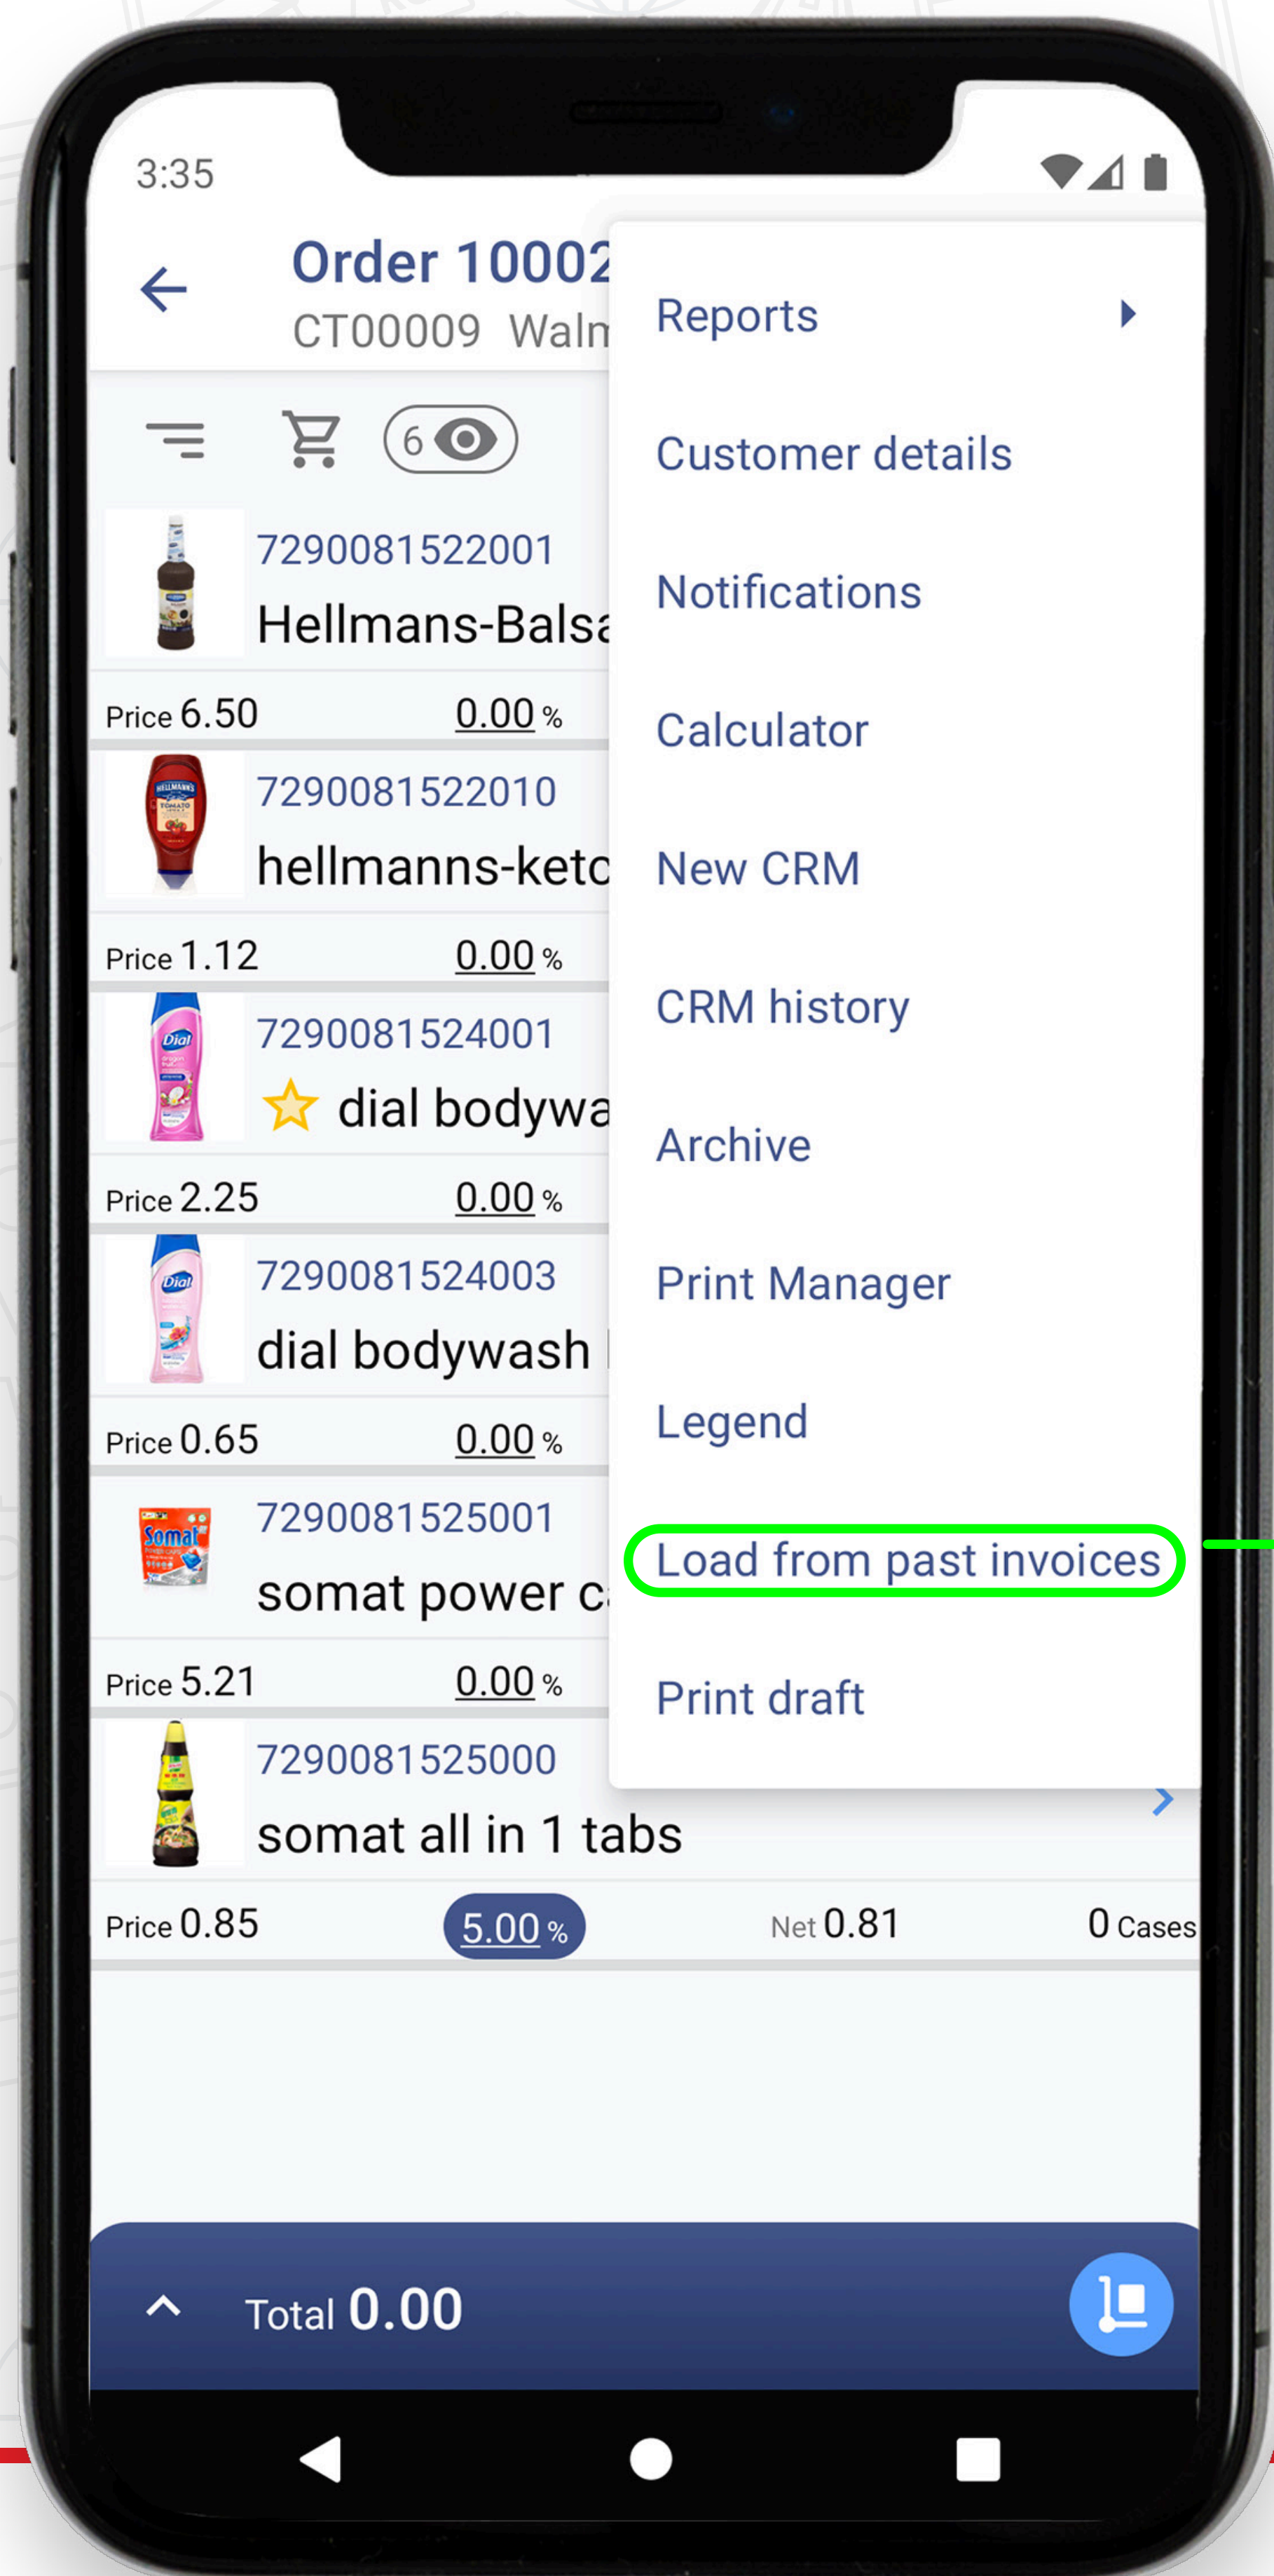

Sales details have been added to catalog view

Sales reps who choose to work in catalog mode can **benefit from additional necessary information:** stock display, color tag on each product, product notes and more.

Additional product info

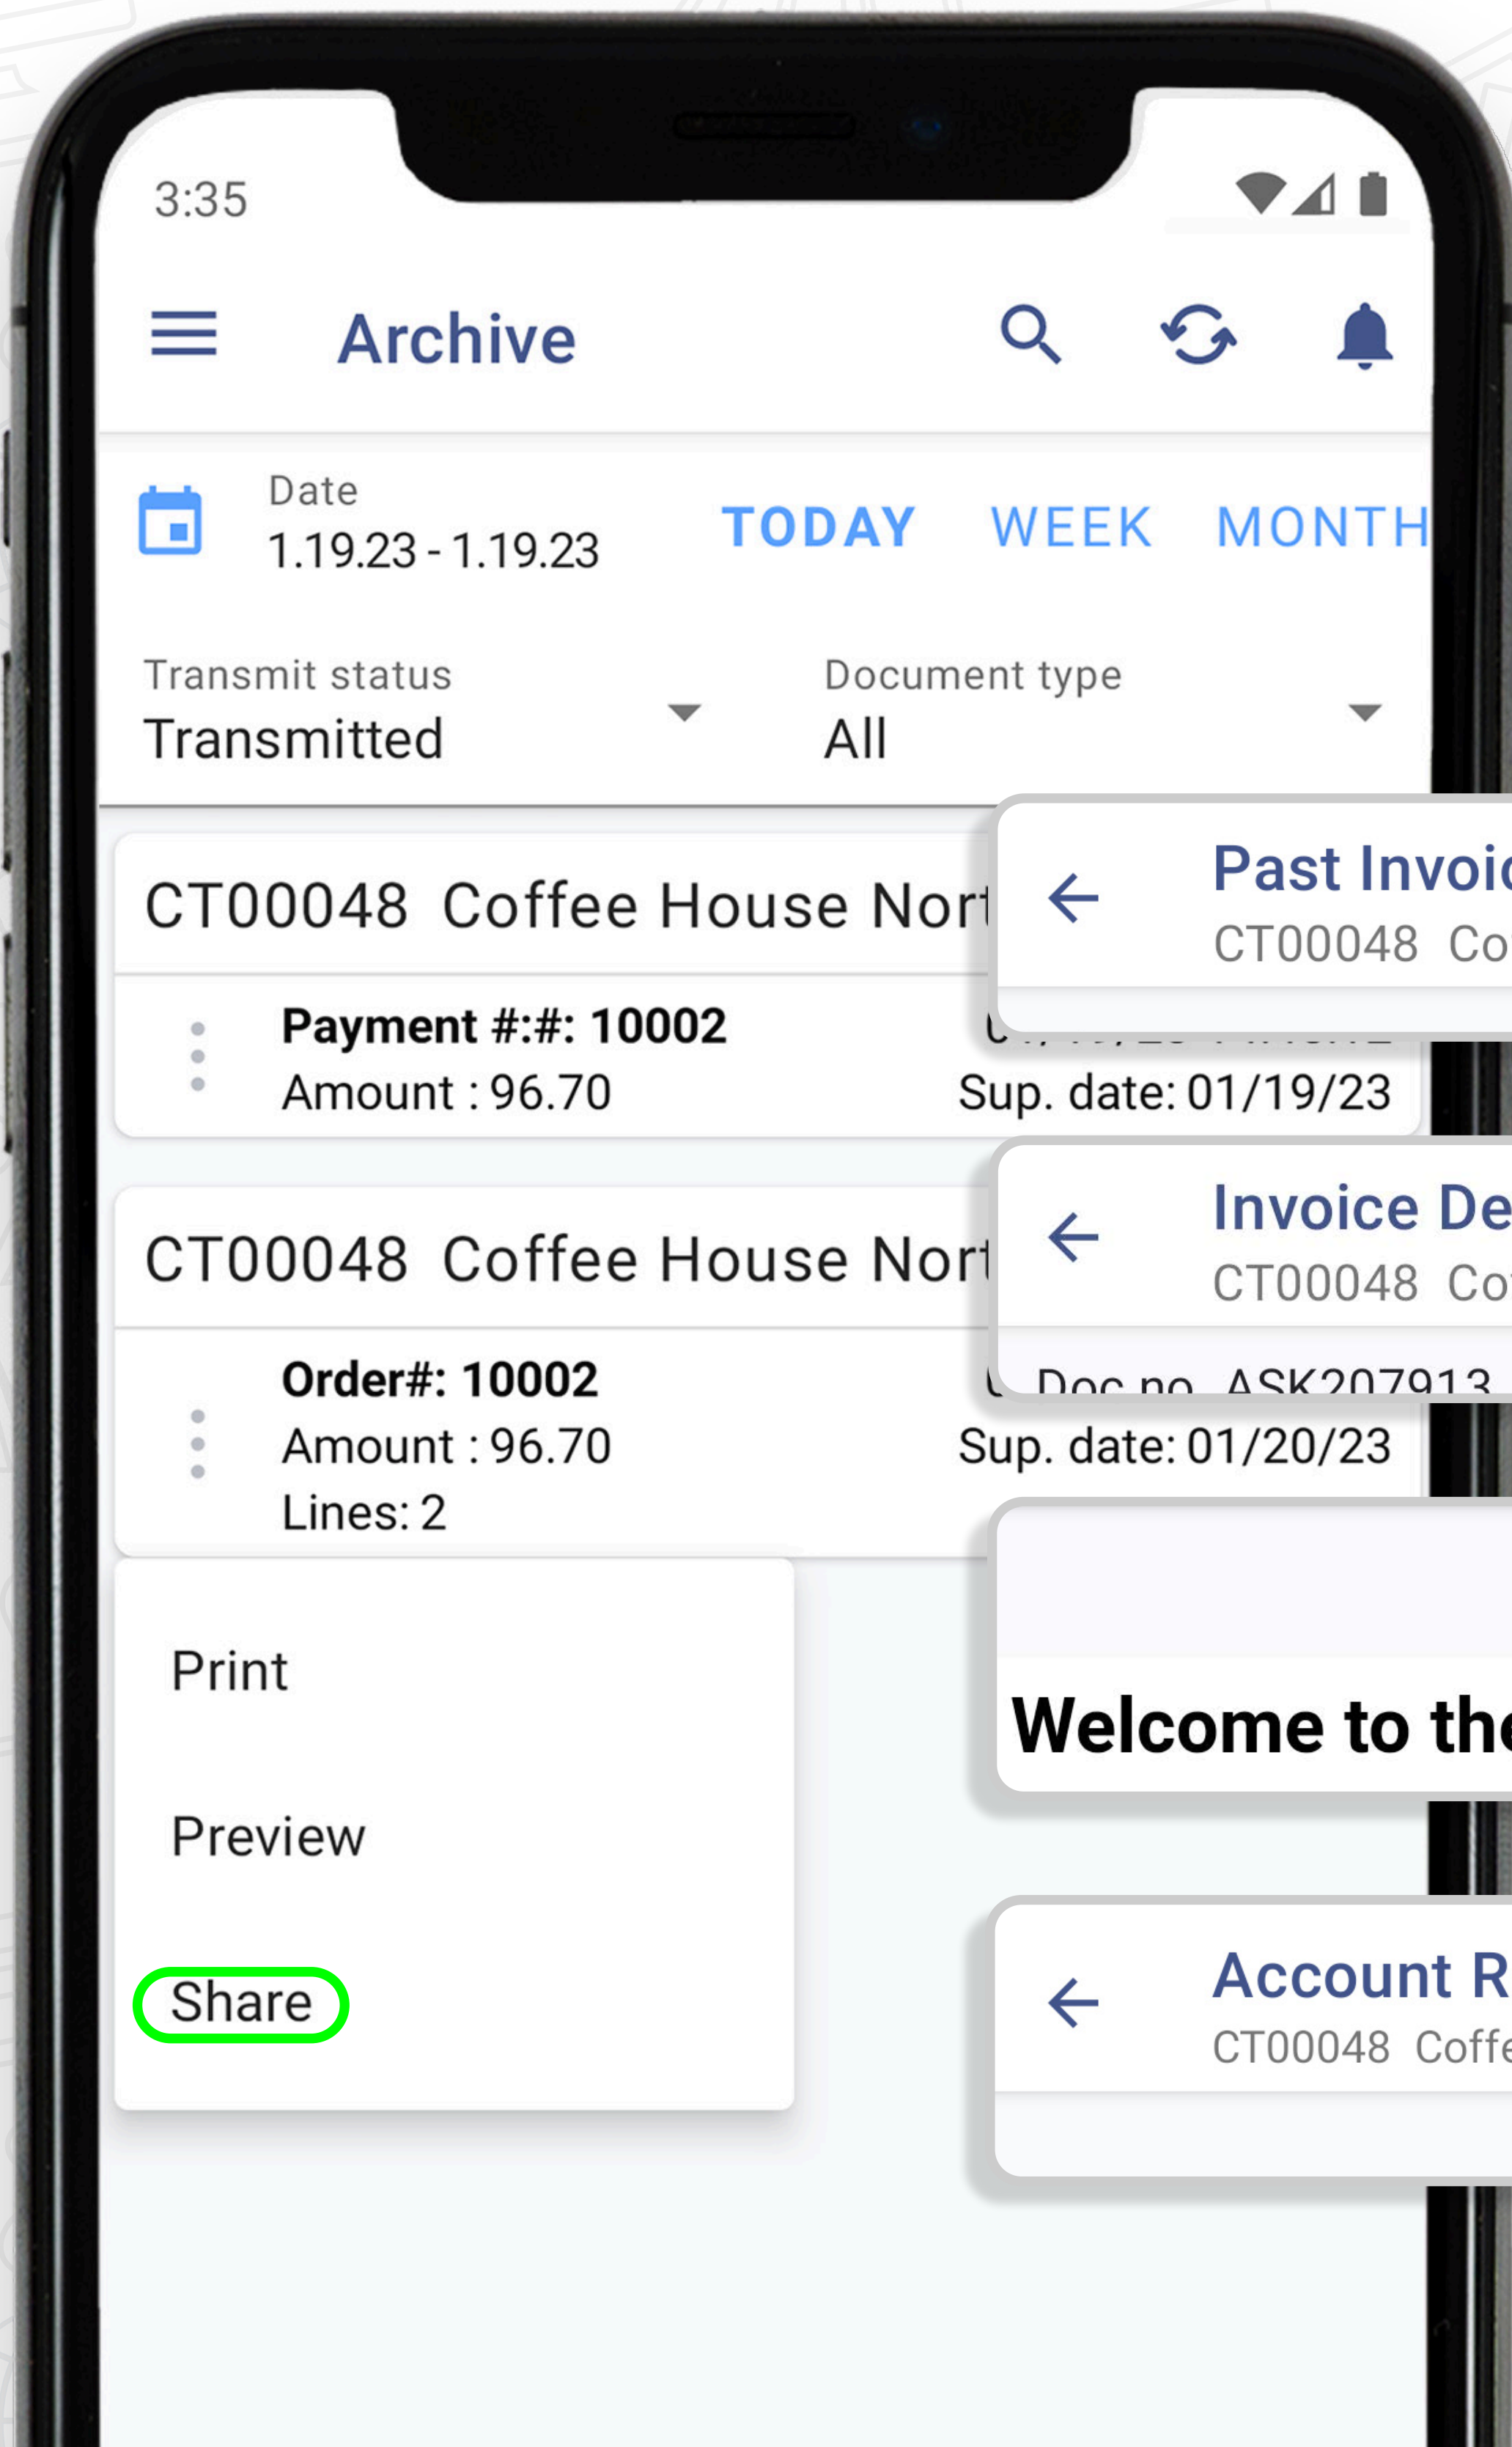

In order to enrich your sales reps knowledge about each product, **you can now display an additional formatted note** in the message tab of the details screen.

Quick and Easy

Loading quantities / prices directly from past invoices to a current order

In case the salesperson would like to create a new order, based on a previous sale, the **option to load quantities from a past invoice directly into a new order has been added.**

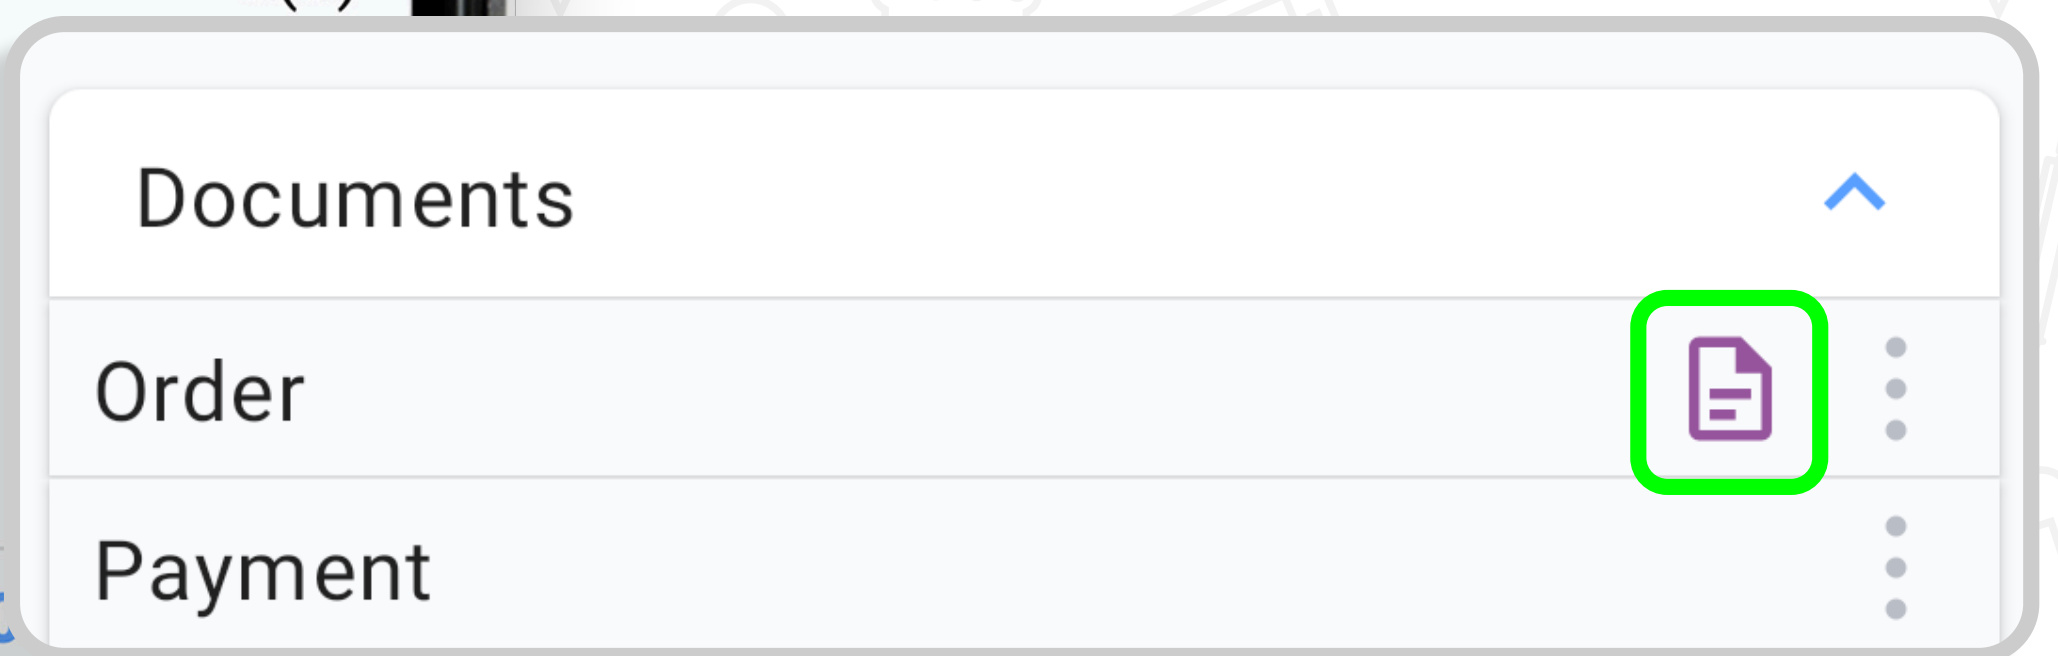

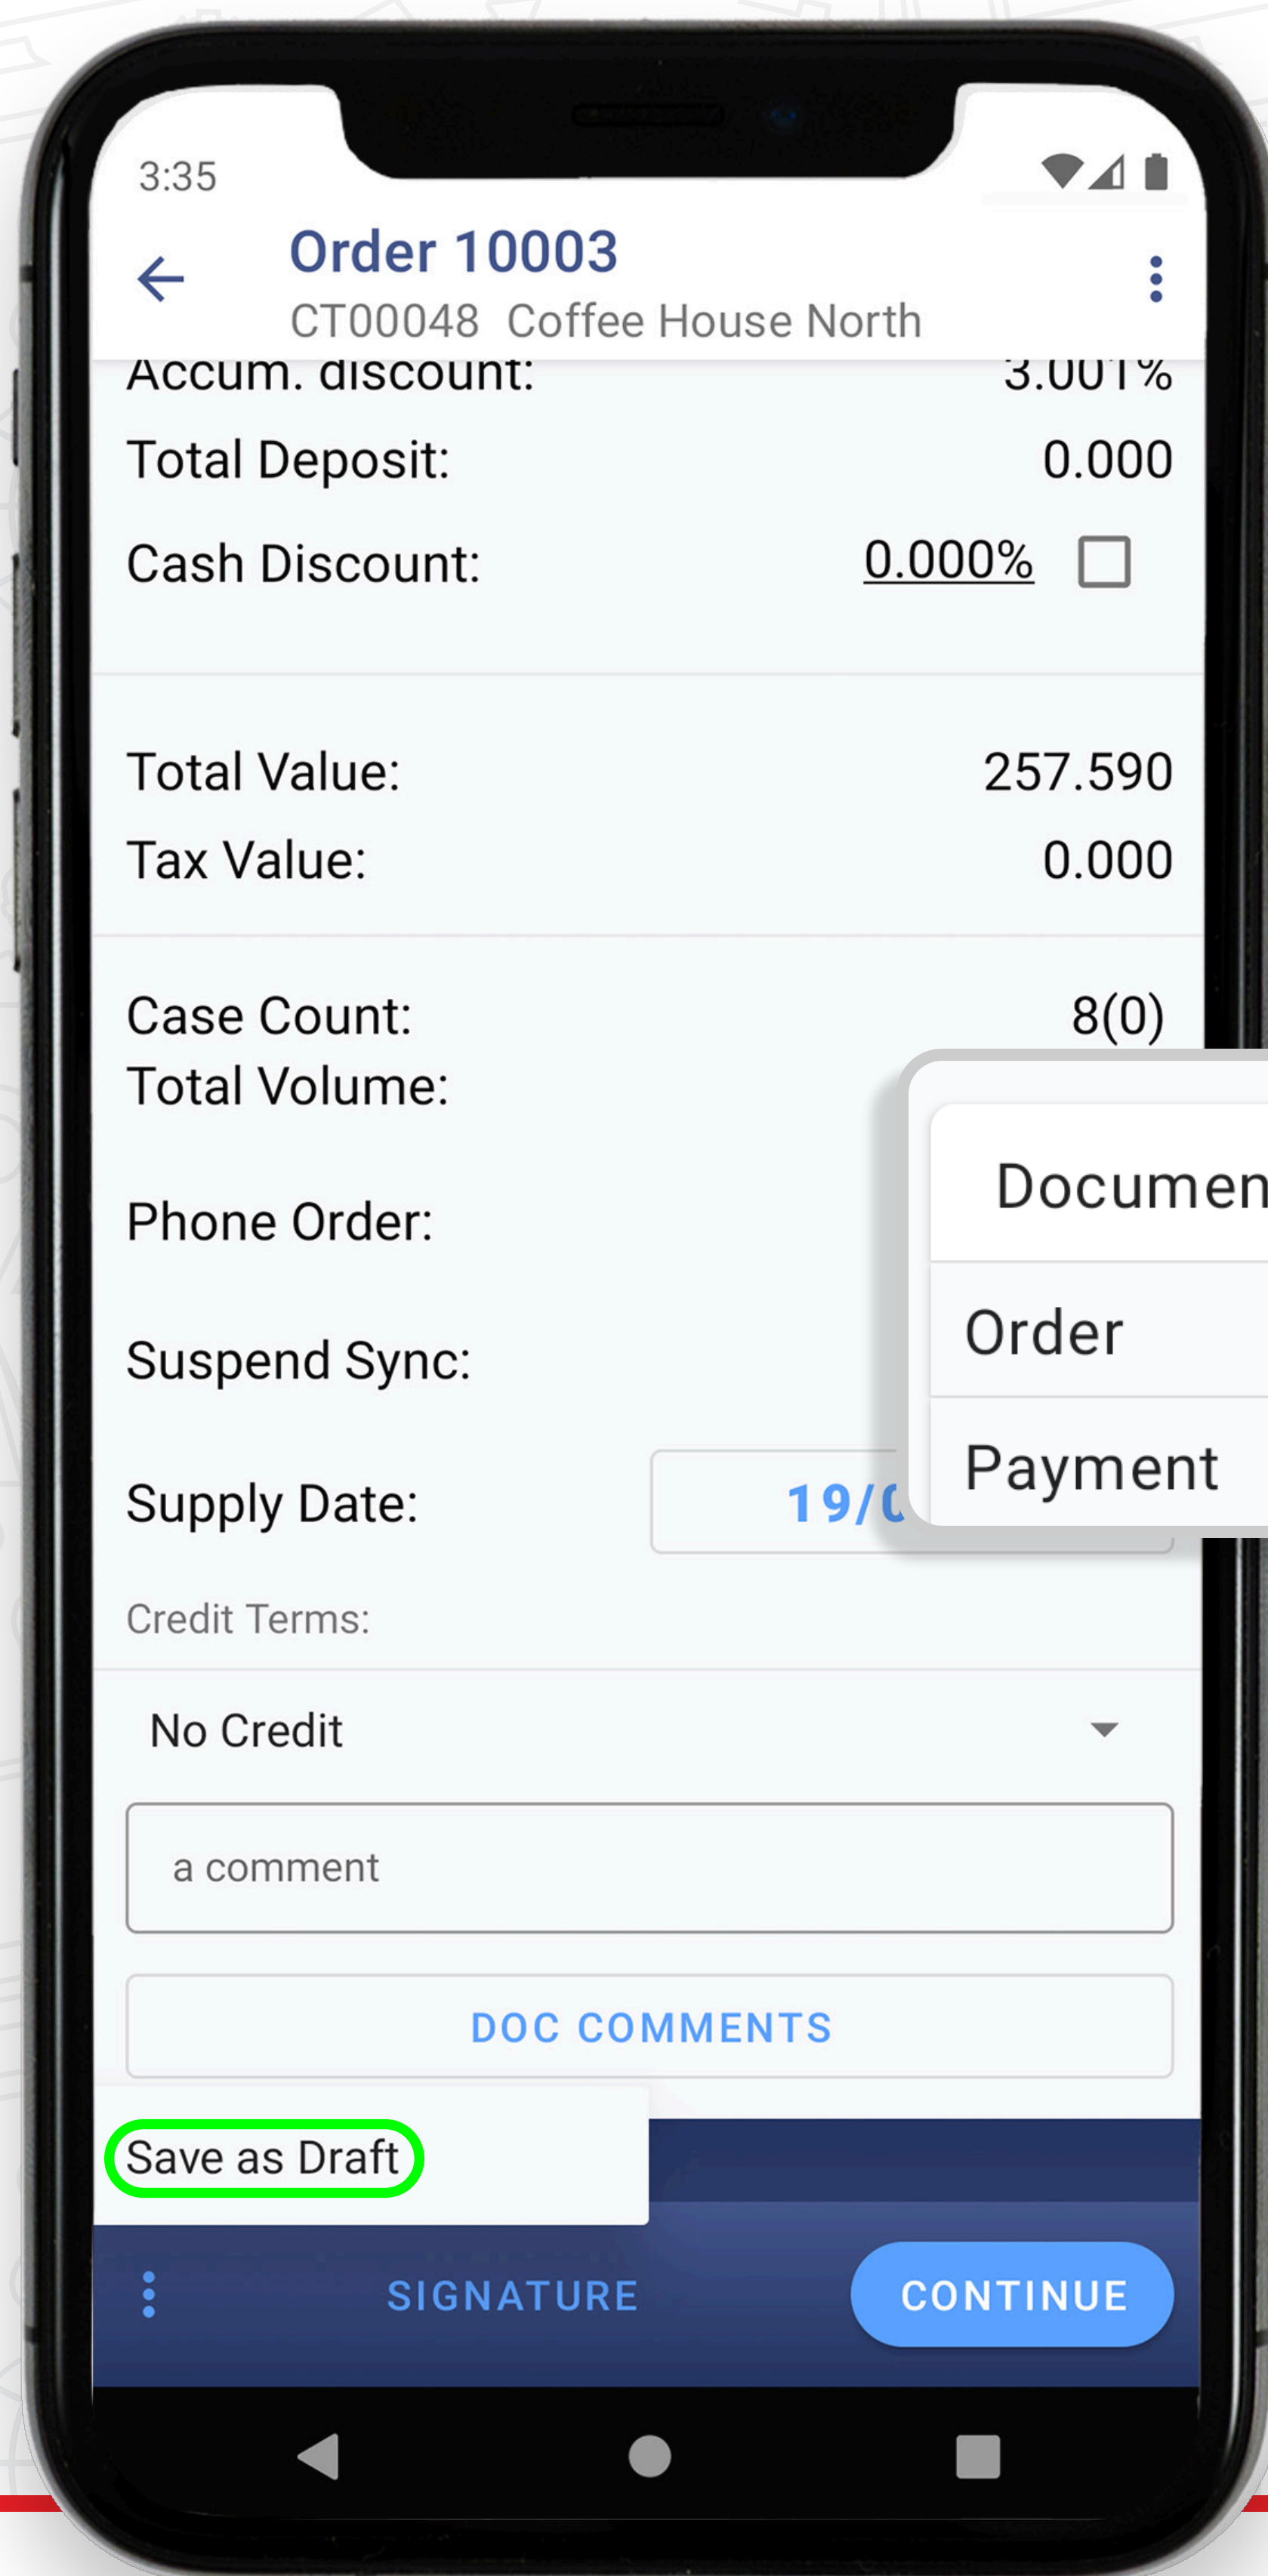

Document types

Creating and sharing PDF files

From now on ASKI can create PDF documents on the server side and show them to the mobile app user, to enable sharing them: Documents, Customer Reports, Statements, Archived Documents and more.

Easy and convenient for viewing and sharing.

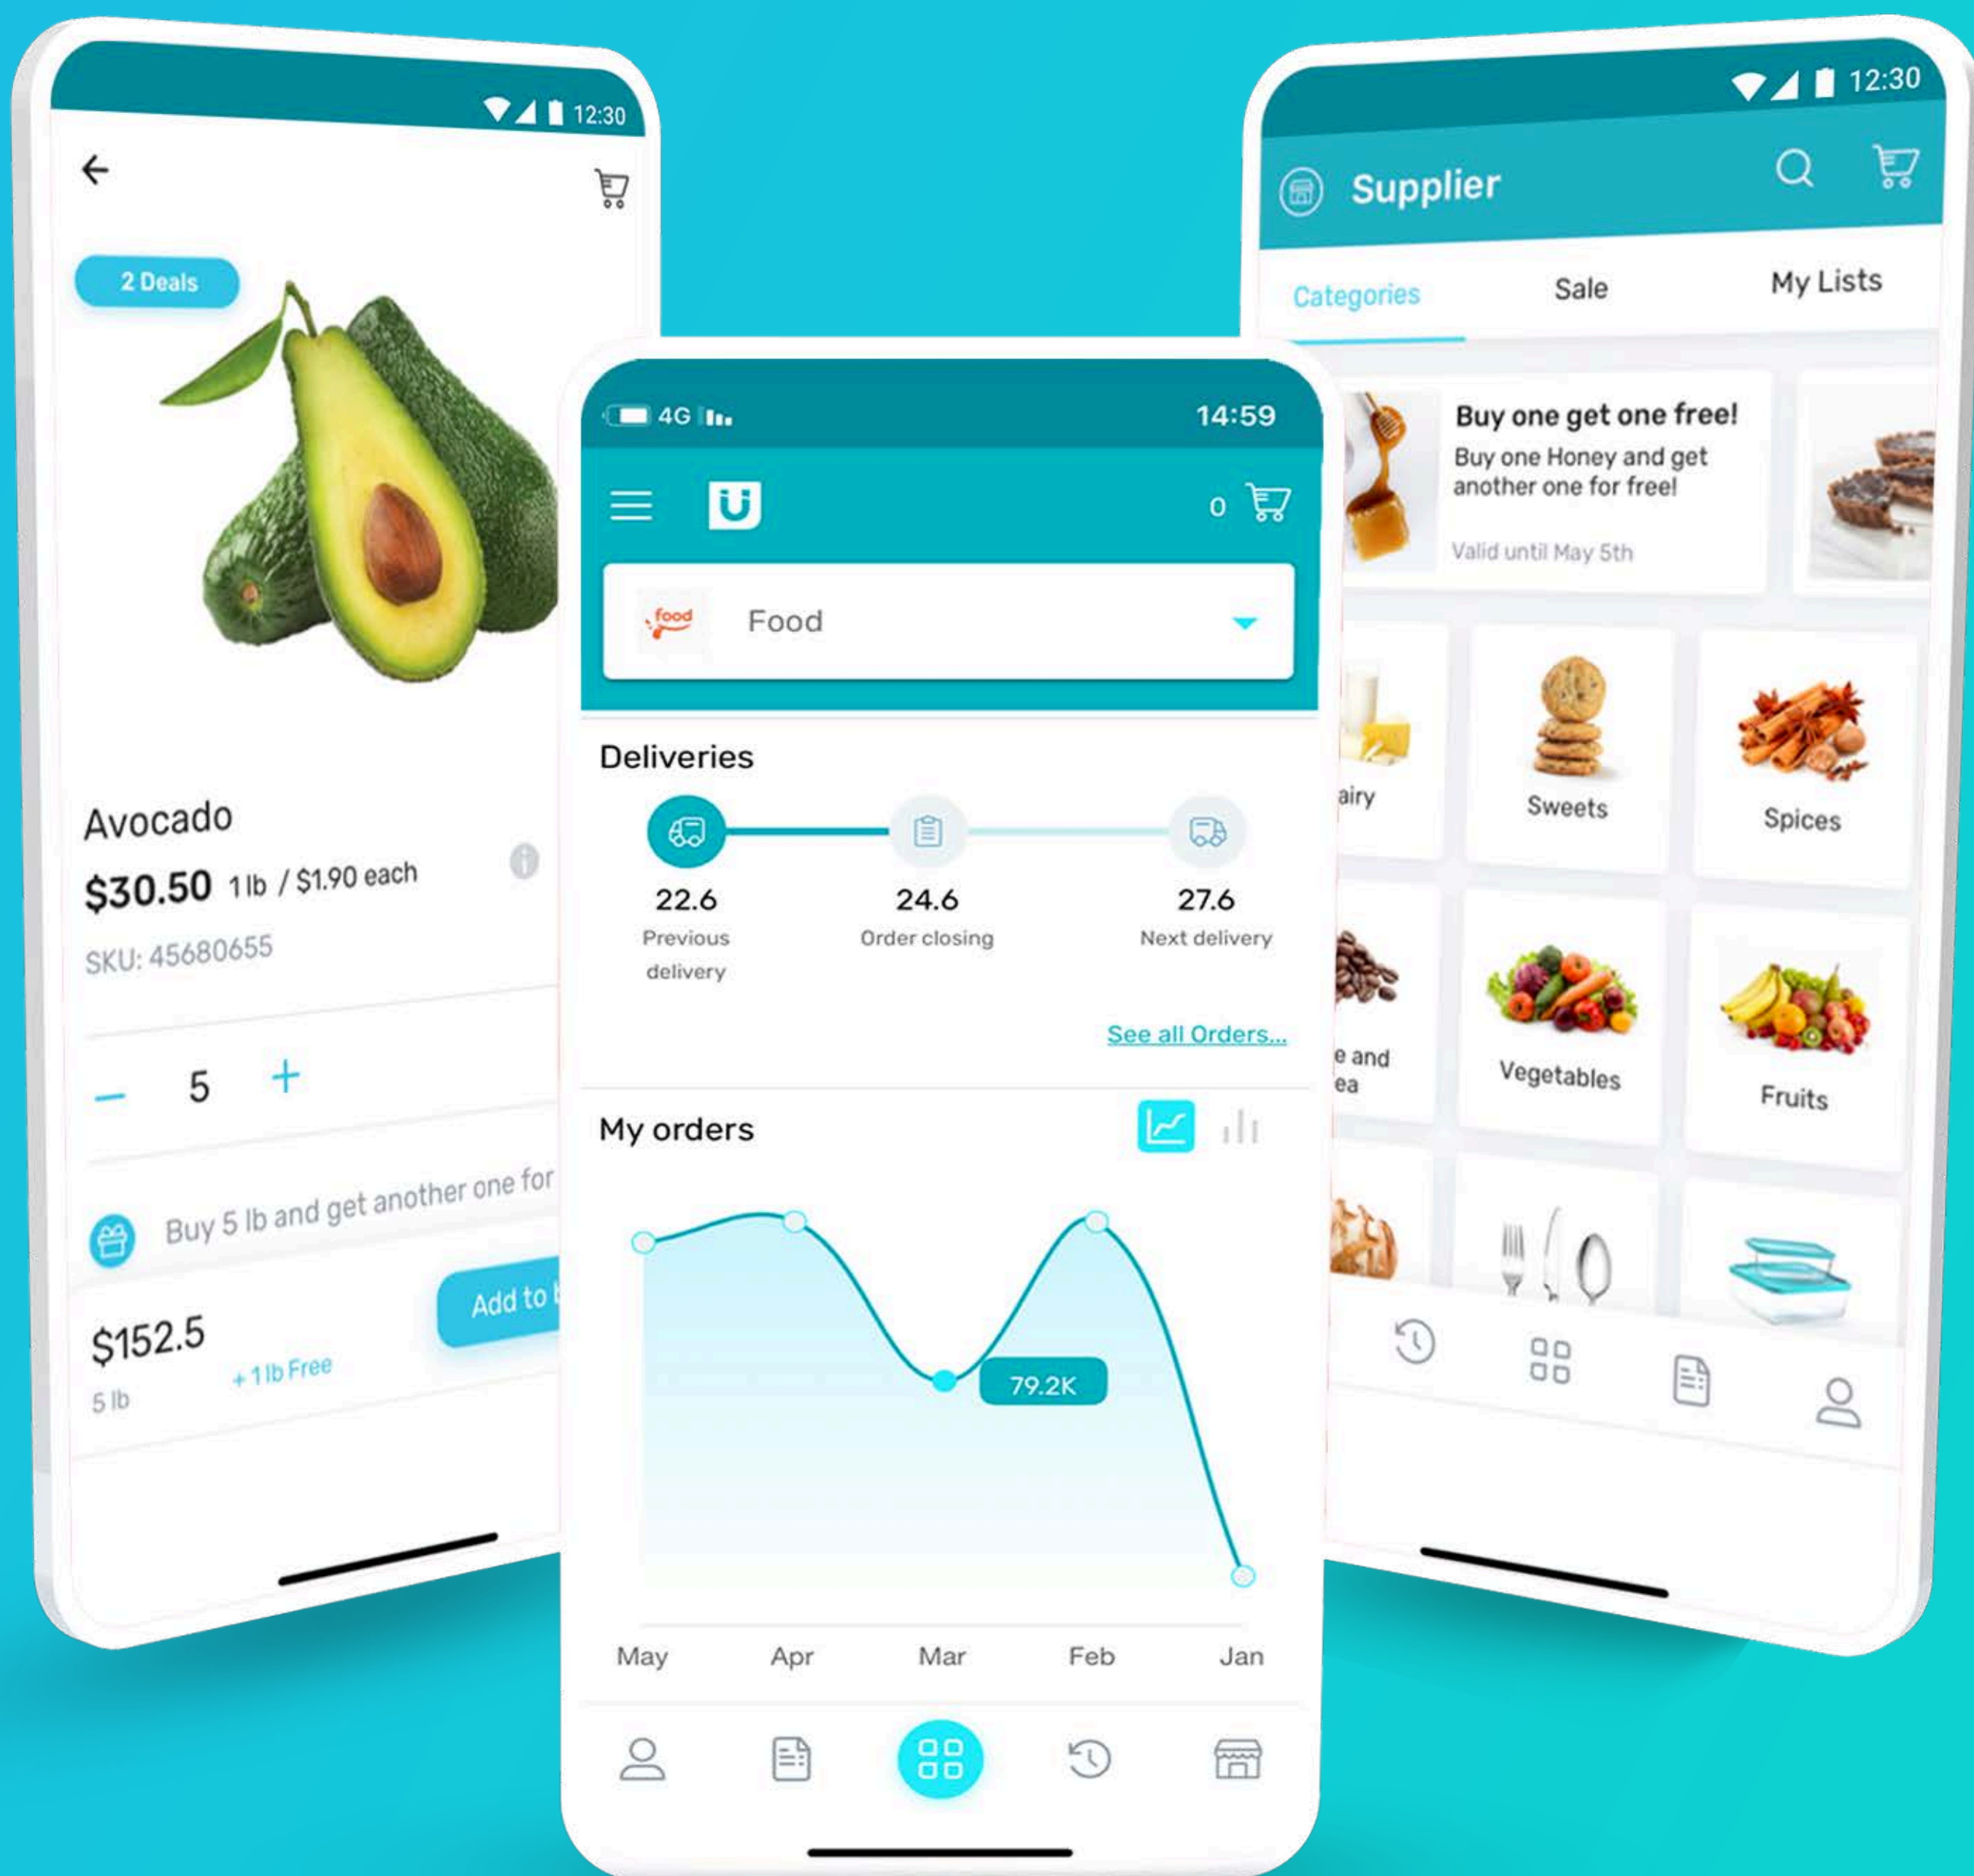

Saving Draft Documents

The ability to save a document as a draft has been added. **This feature allows higher efficiency in creating, editing, and working on multiple orders in parallel.**

SELF-ORDER

WHAT'S NEW IN THE SYSTEM

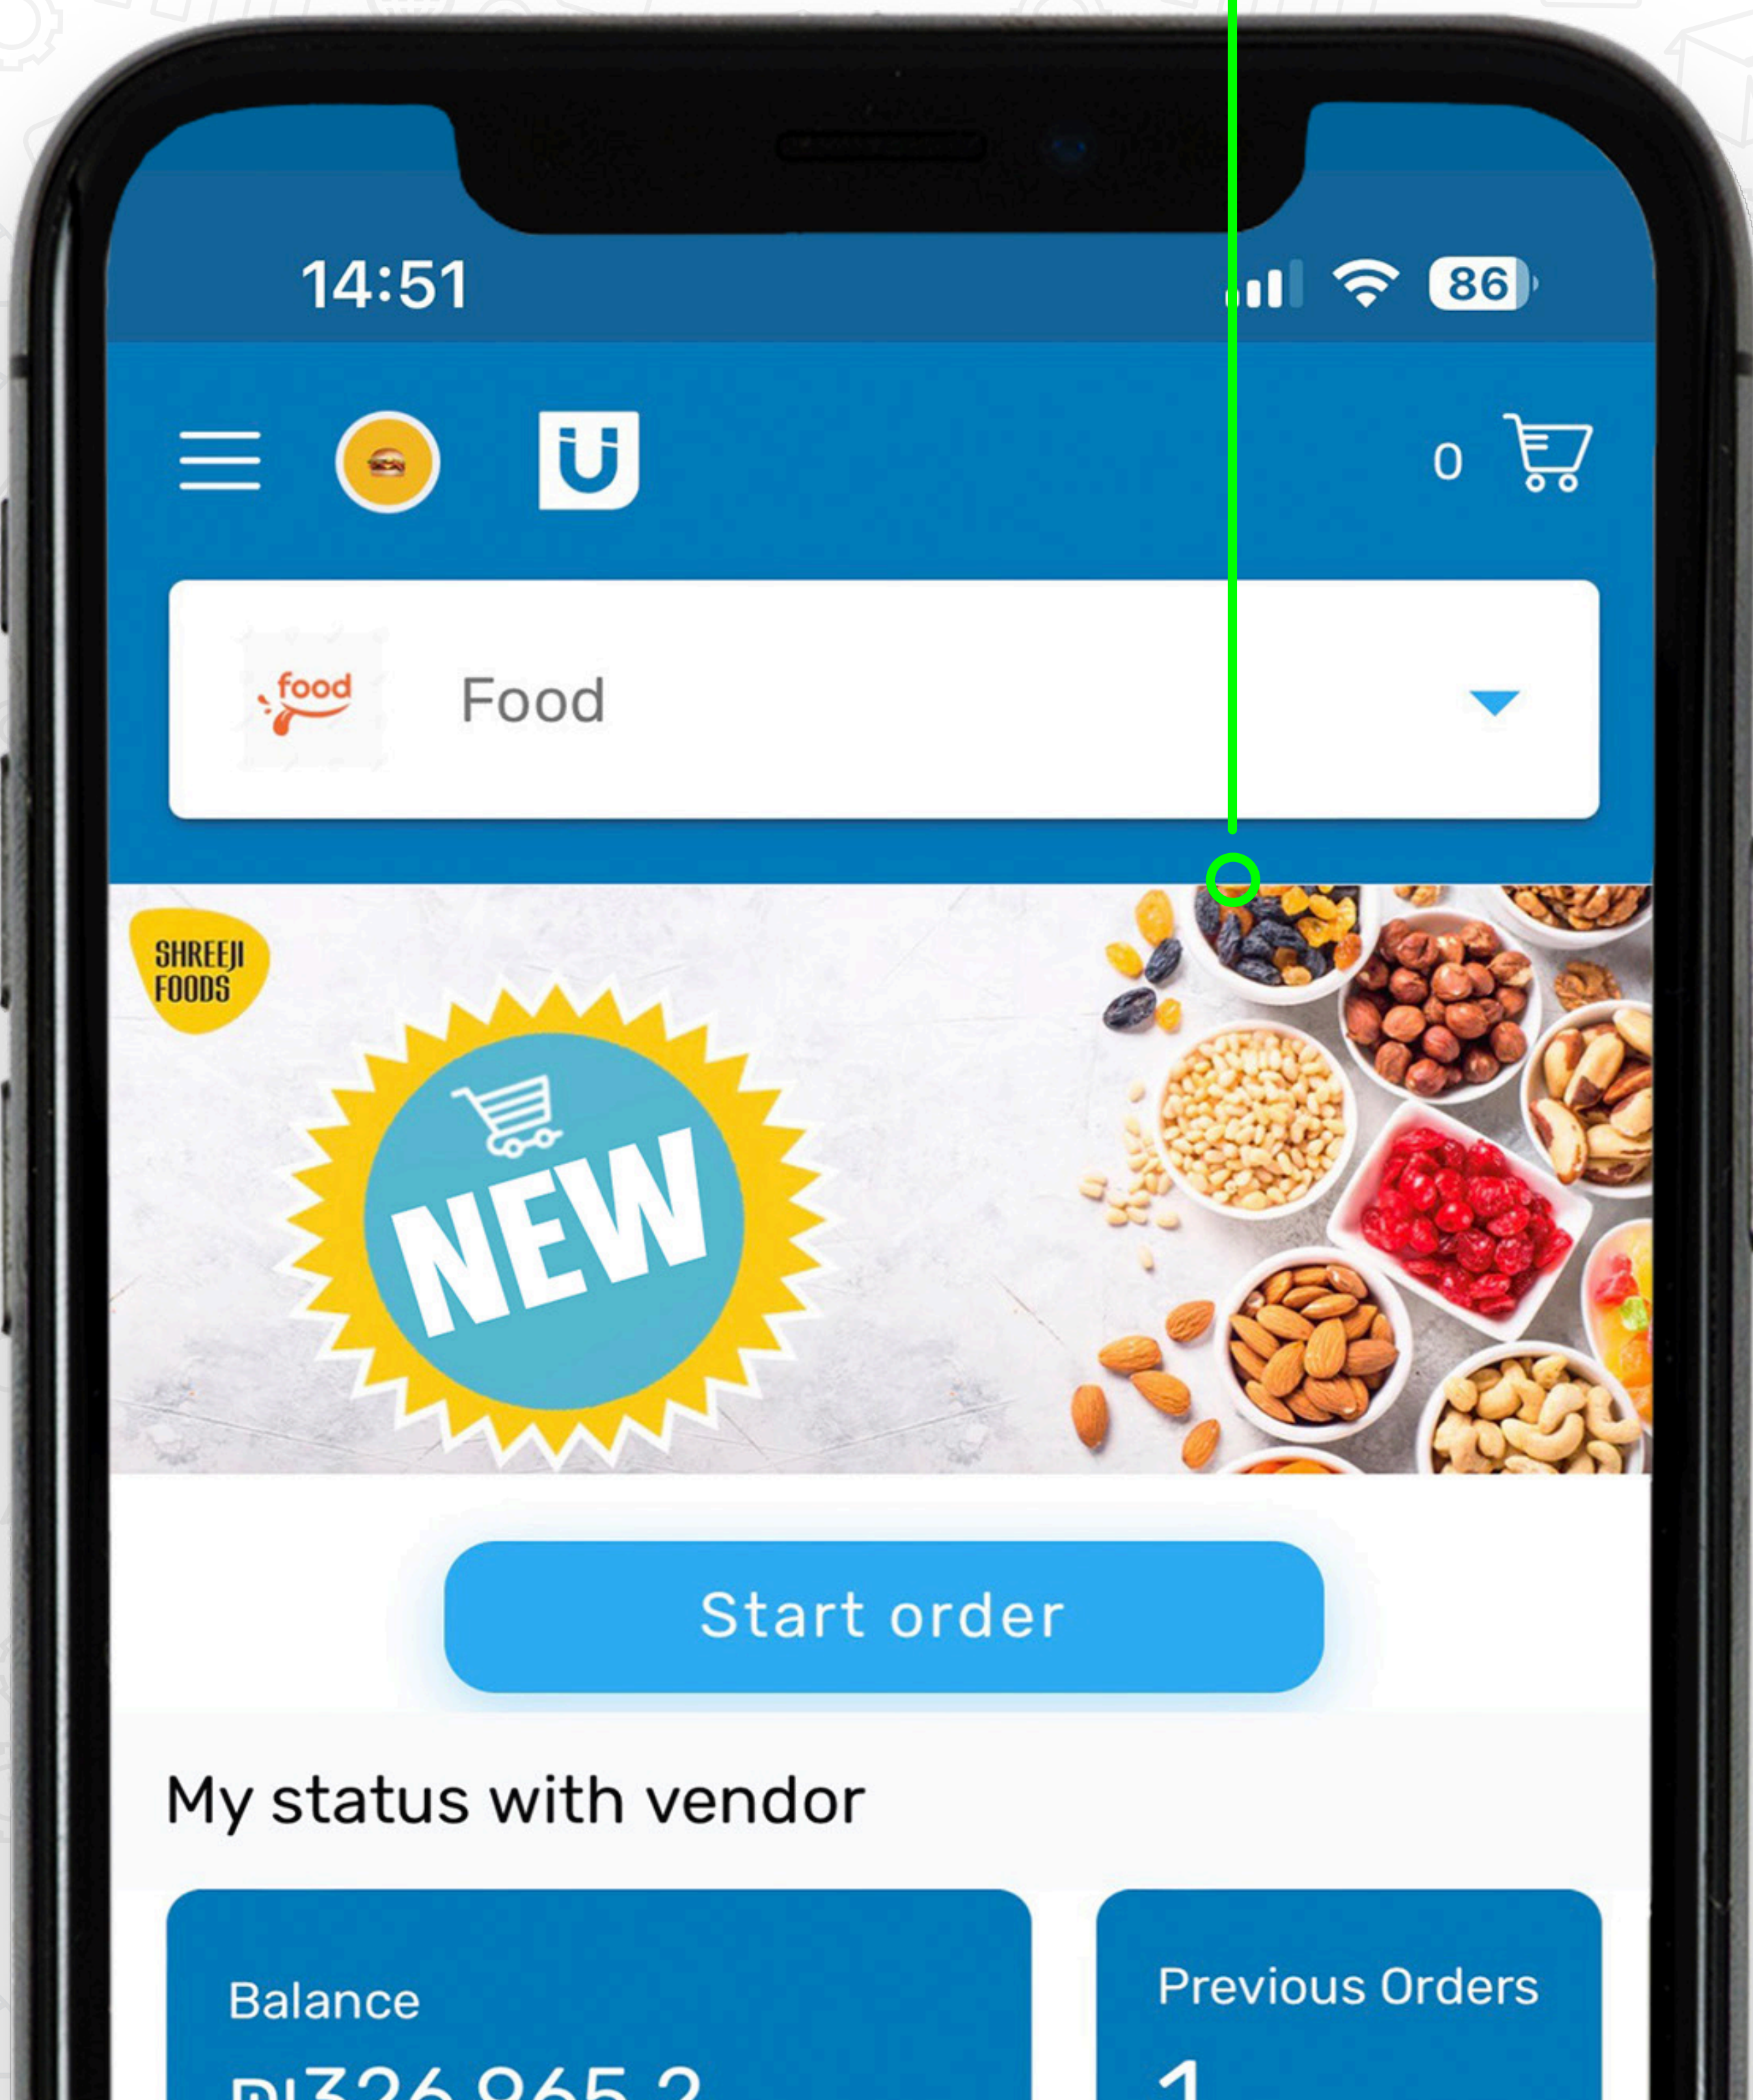

FEBRUARY 2023

All the new features already exist in the system and the application.
Implementation may require billable professional services.

For Details: support@pocketlink.co.il

Personalized Banner

Advertising and promoting your brands

Now it is possible to set a personalized promotional banner, **that will be visible to your SELF ORDER customers** while using the App.

Export Orders to Excel

Self Order App

Food

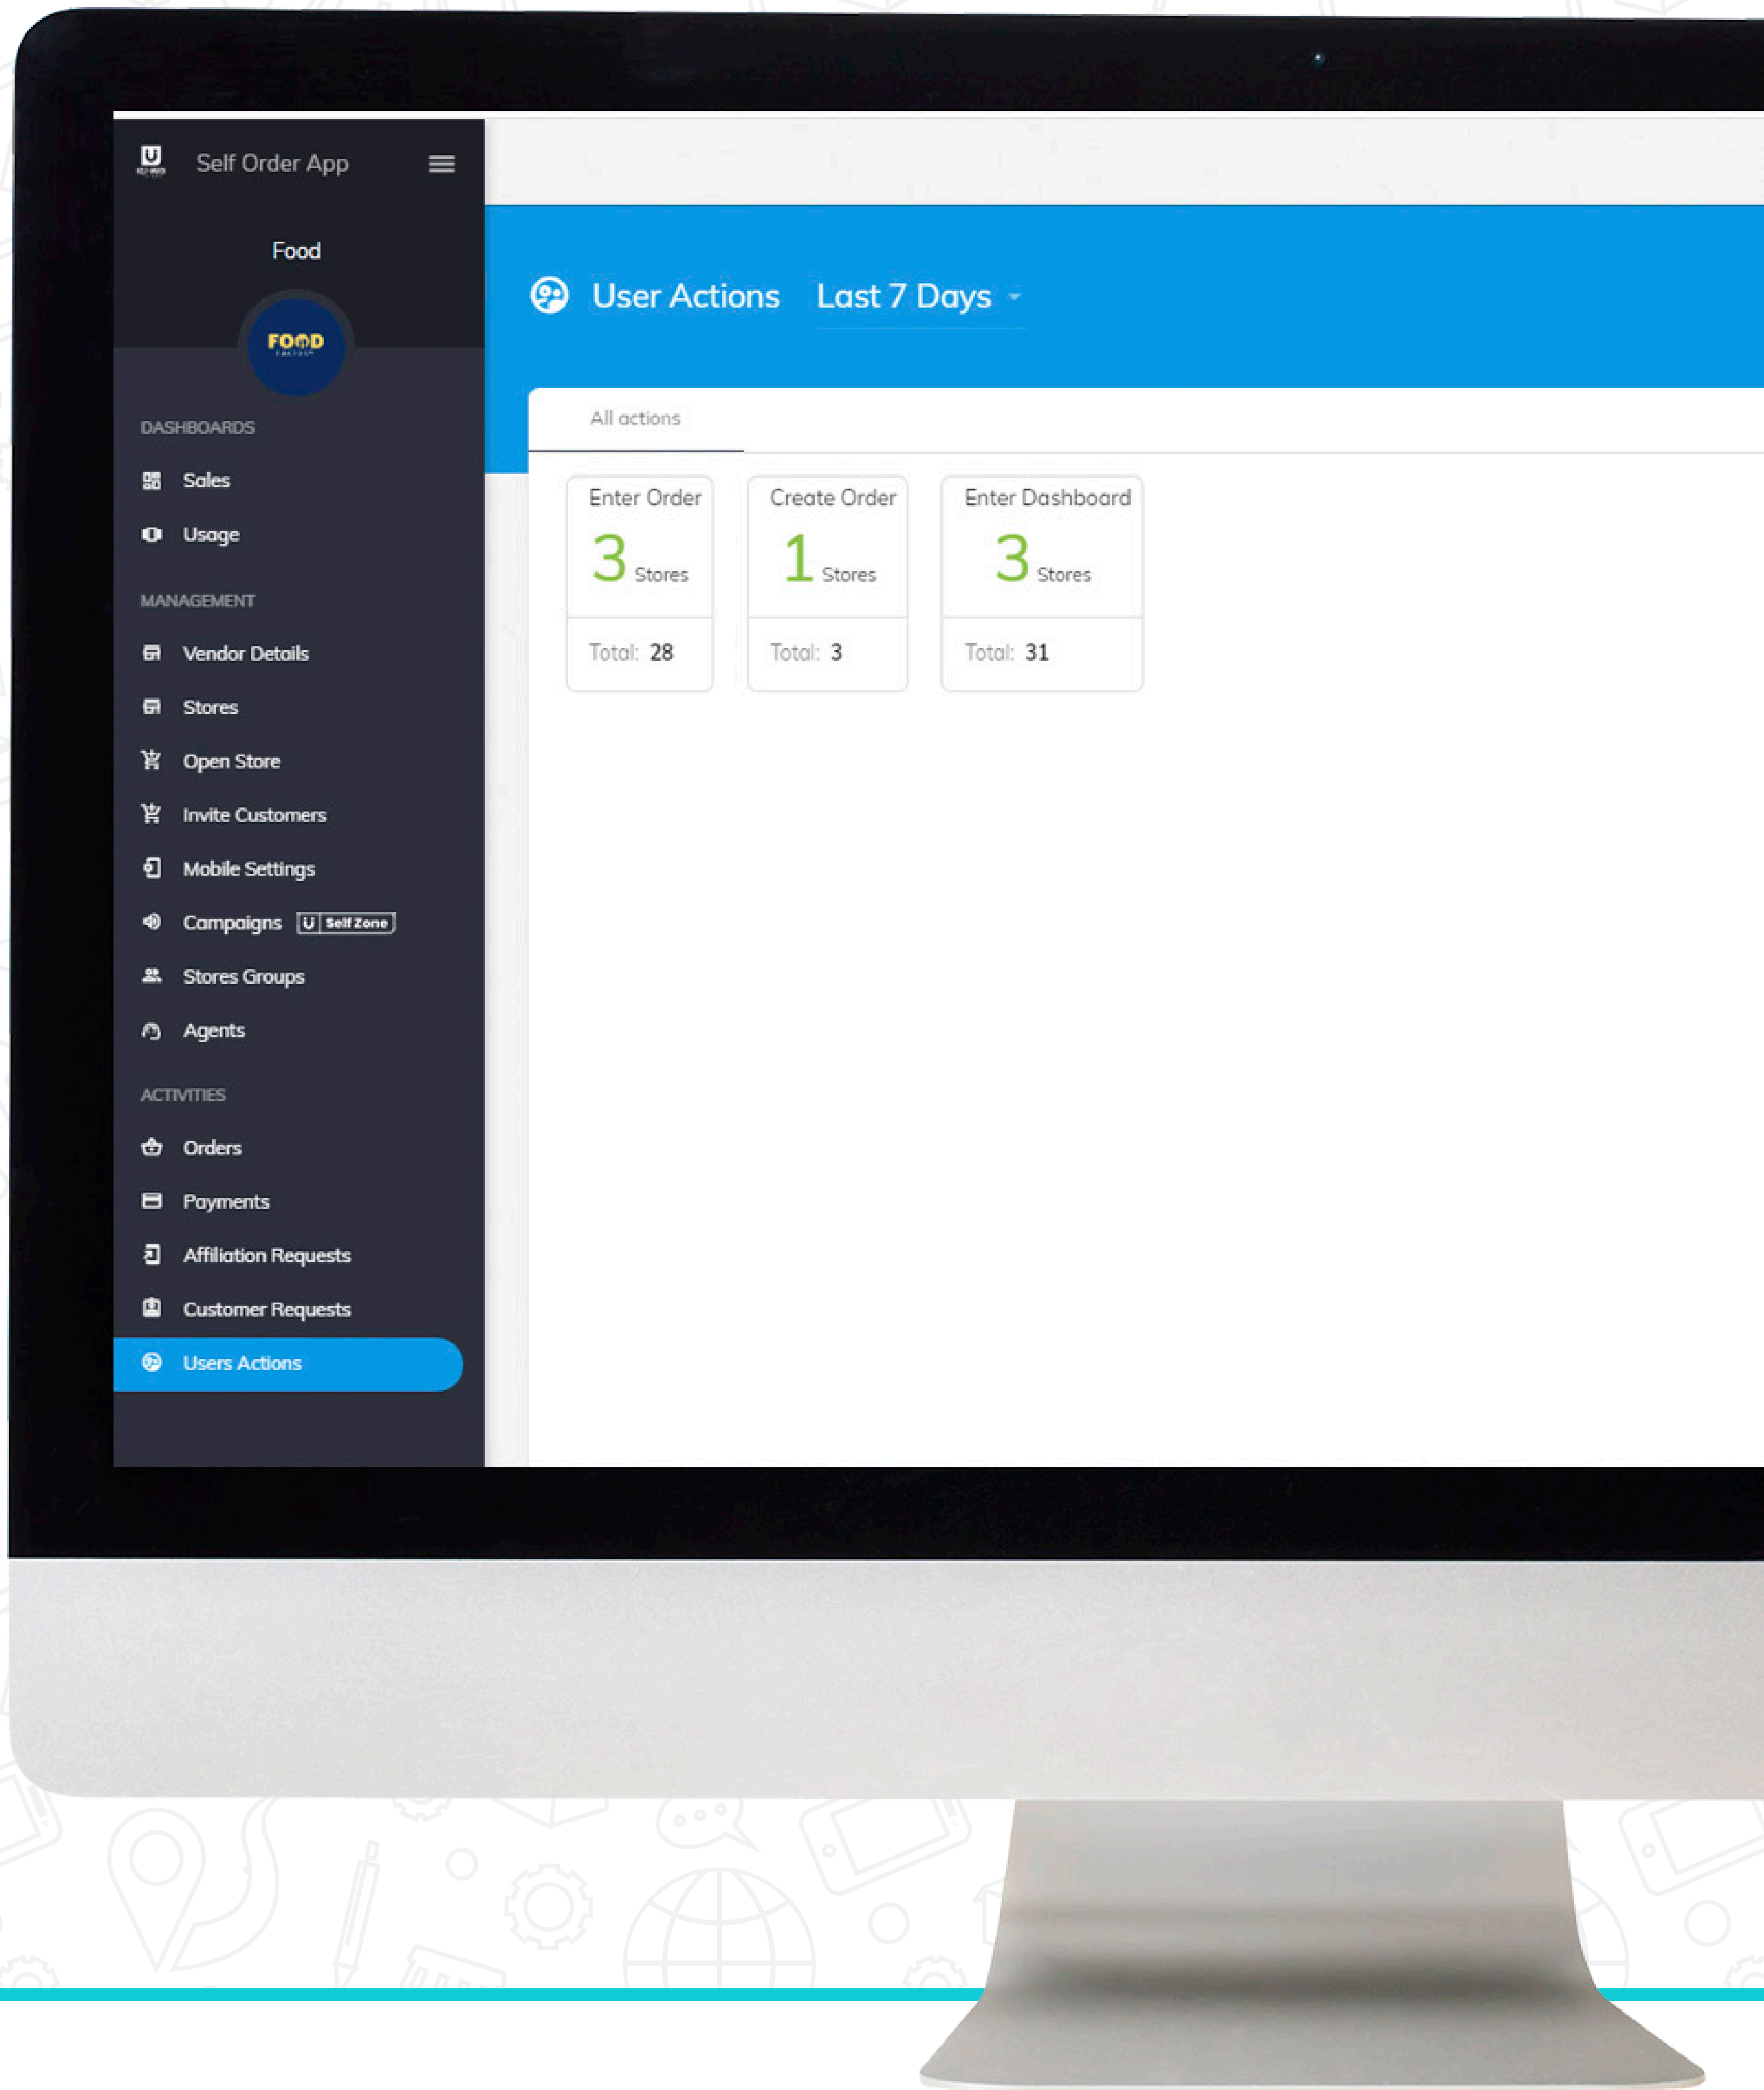

Orders Last 7 Days

Search for an order

	Store	Total	Total Qty	Lines Count	Status	Date	Reference	Agent	Remark

5	CT00028	181.91	18	1	Transmitted To Server	1/22/23, 1:15 PM	SELF-0B6C-093403	555	

Exporting orders to Excel files

The SELF ORDER Web Console allows to export the incoming orders **to Excel files**, allowing easy and efficient processing/forwarding of orders.

Gain visibility on your customers usage

Now you can **track usage and habits** in the **SELF ORDER Web Console**.

Customers self-order,
**the Sales Rep is
notified
immediately**

NEW! SELF BRIDGE APP

The application that will **connect your Sales and Customer Service Reps with their customers.**

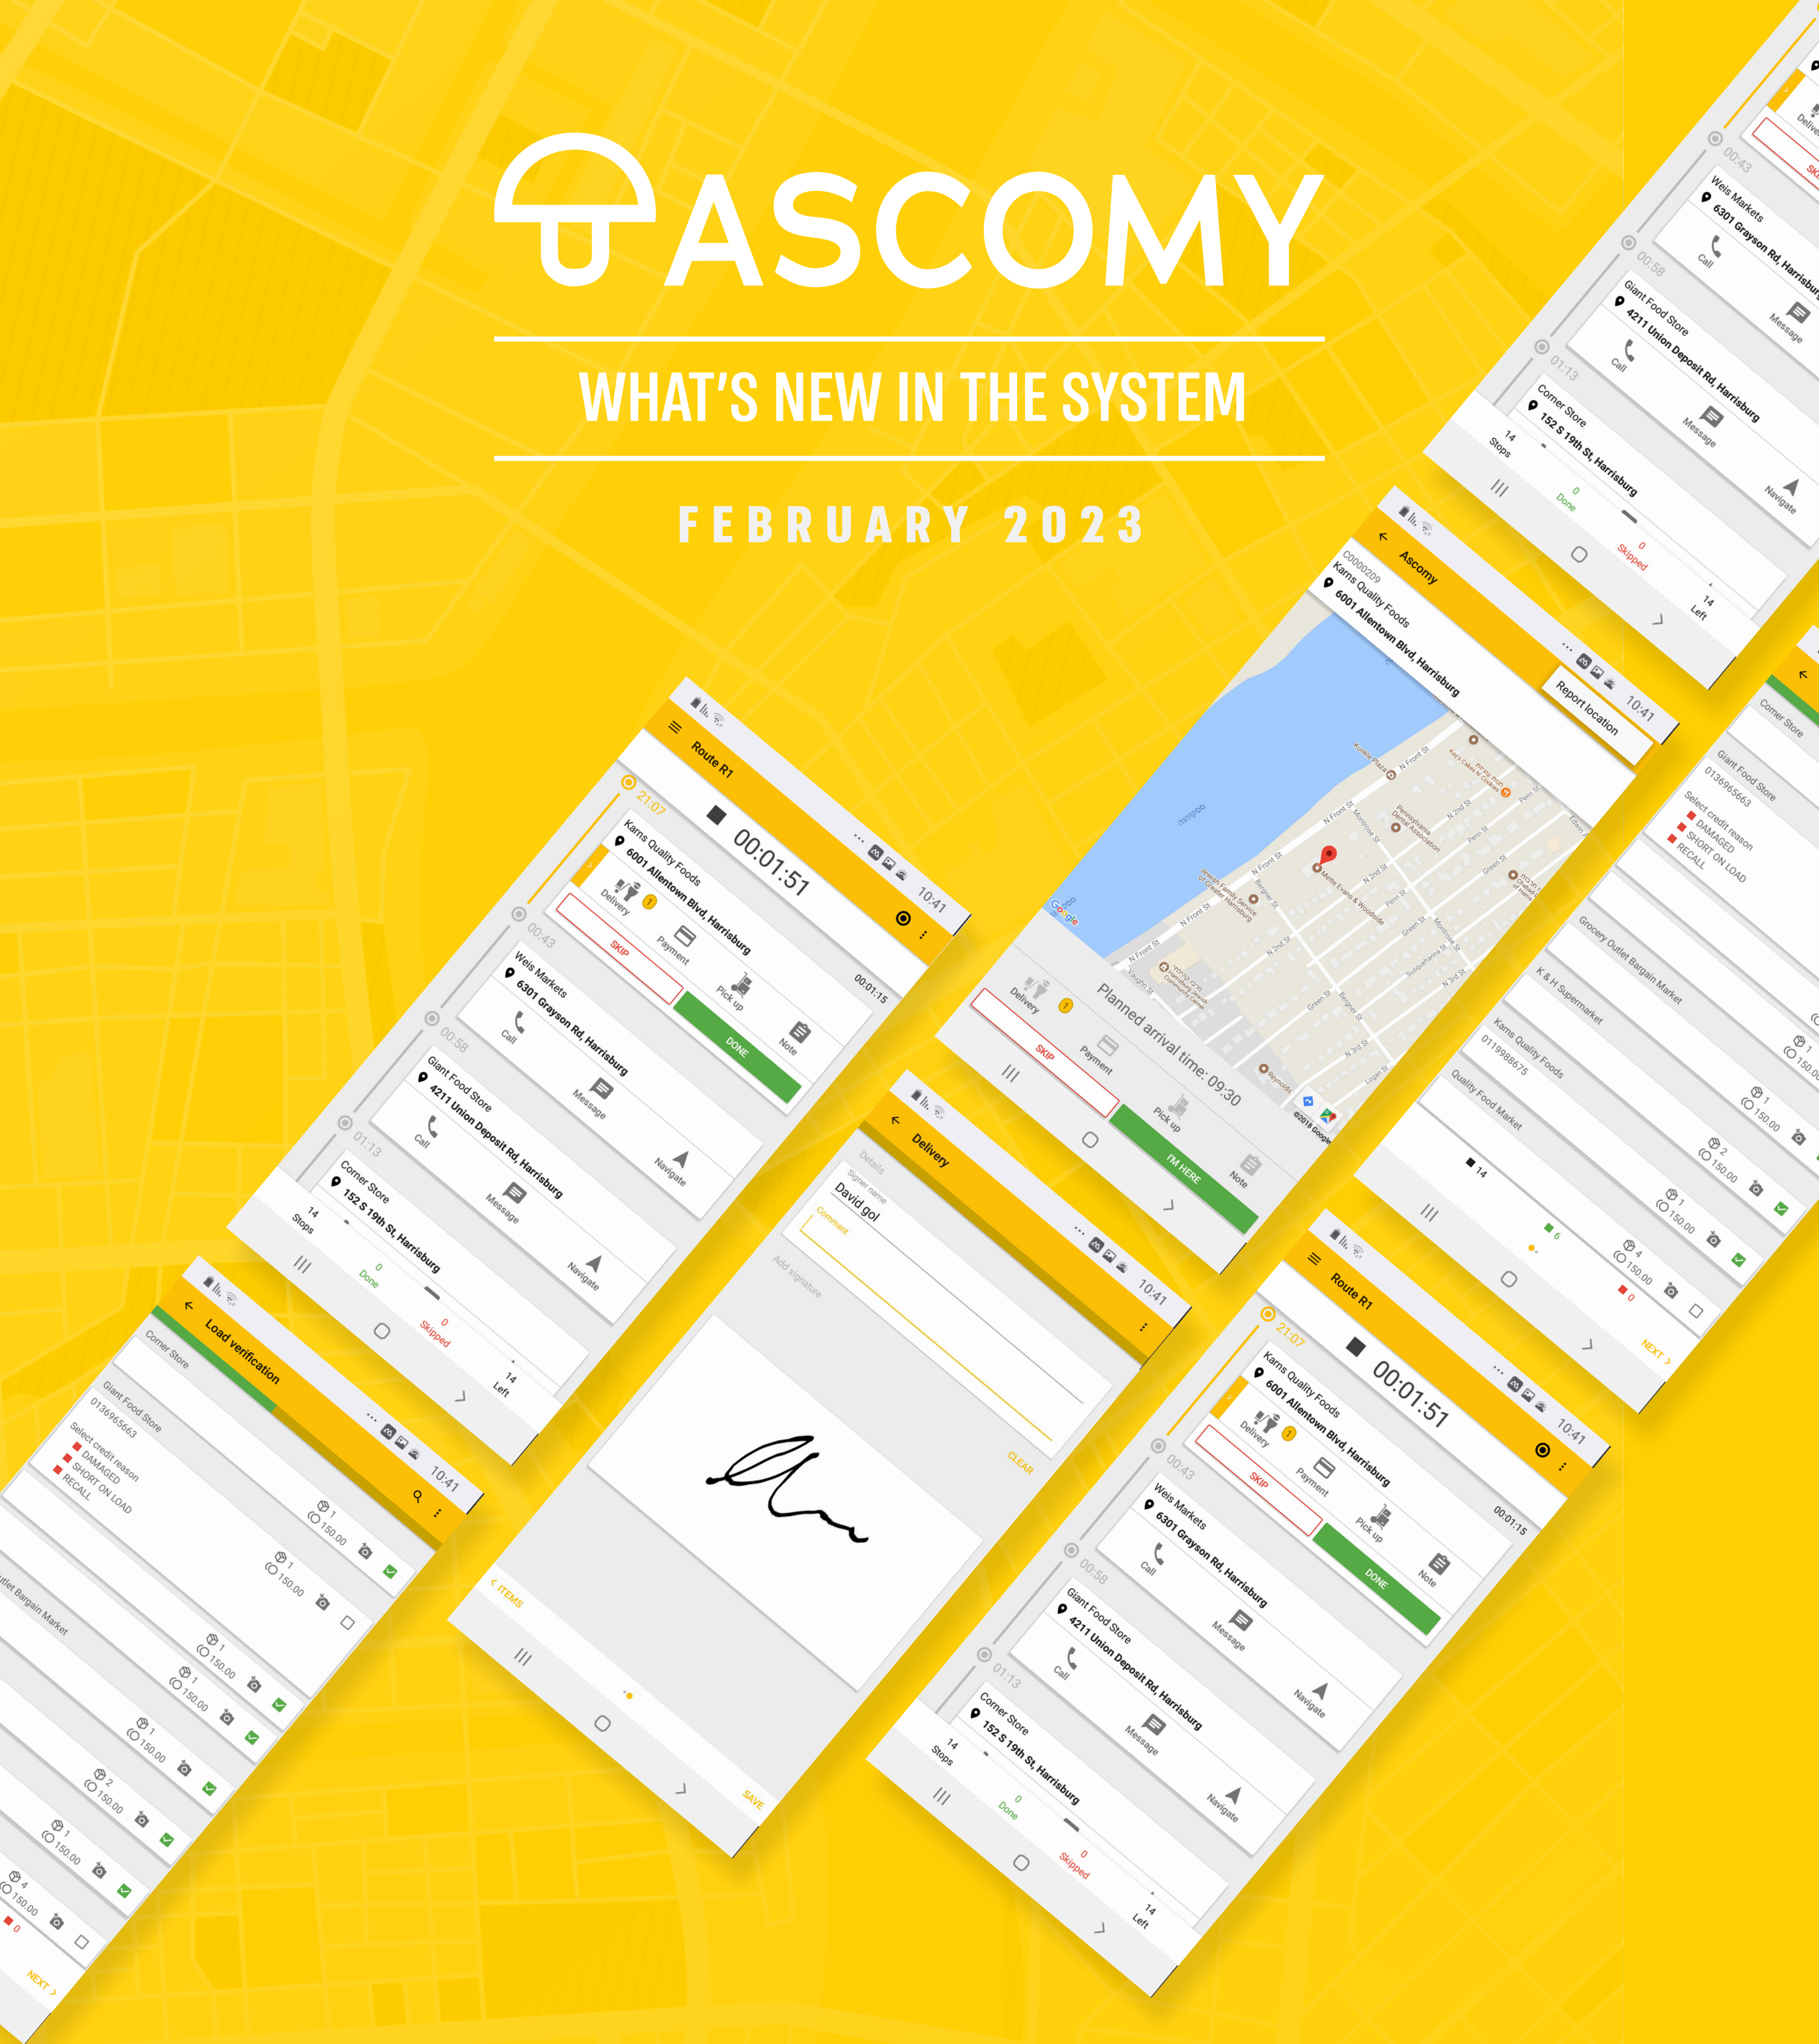

Always, everywhere, in real time.

WHAT'S NEW IN THE SYSTEM

Delivery document is attached to the delivery information

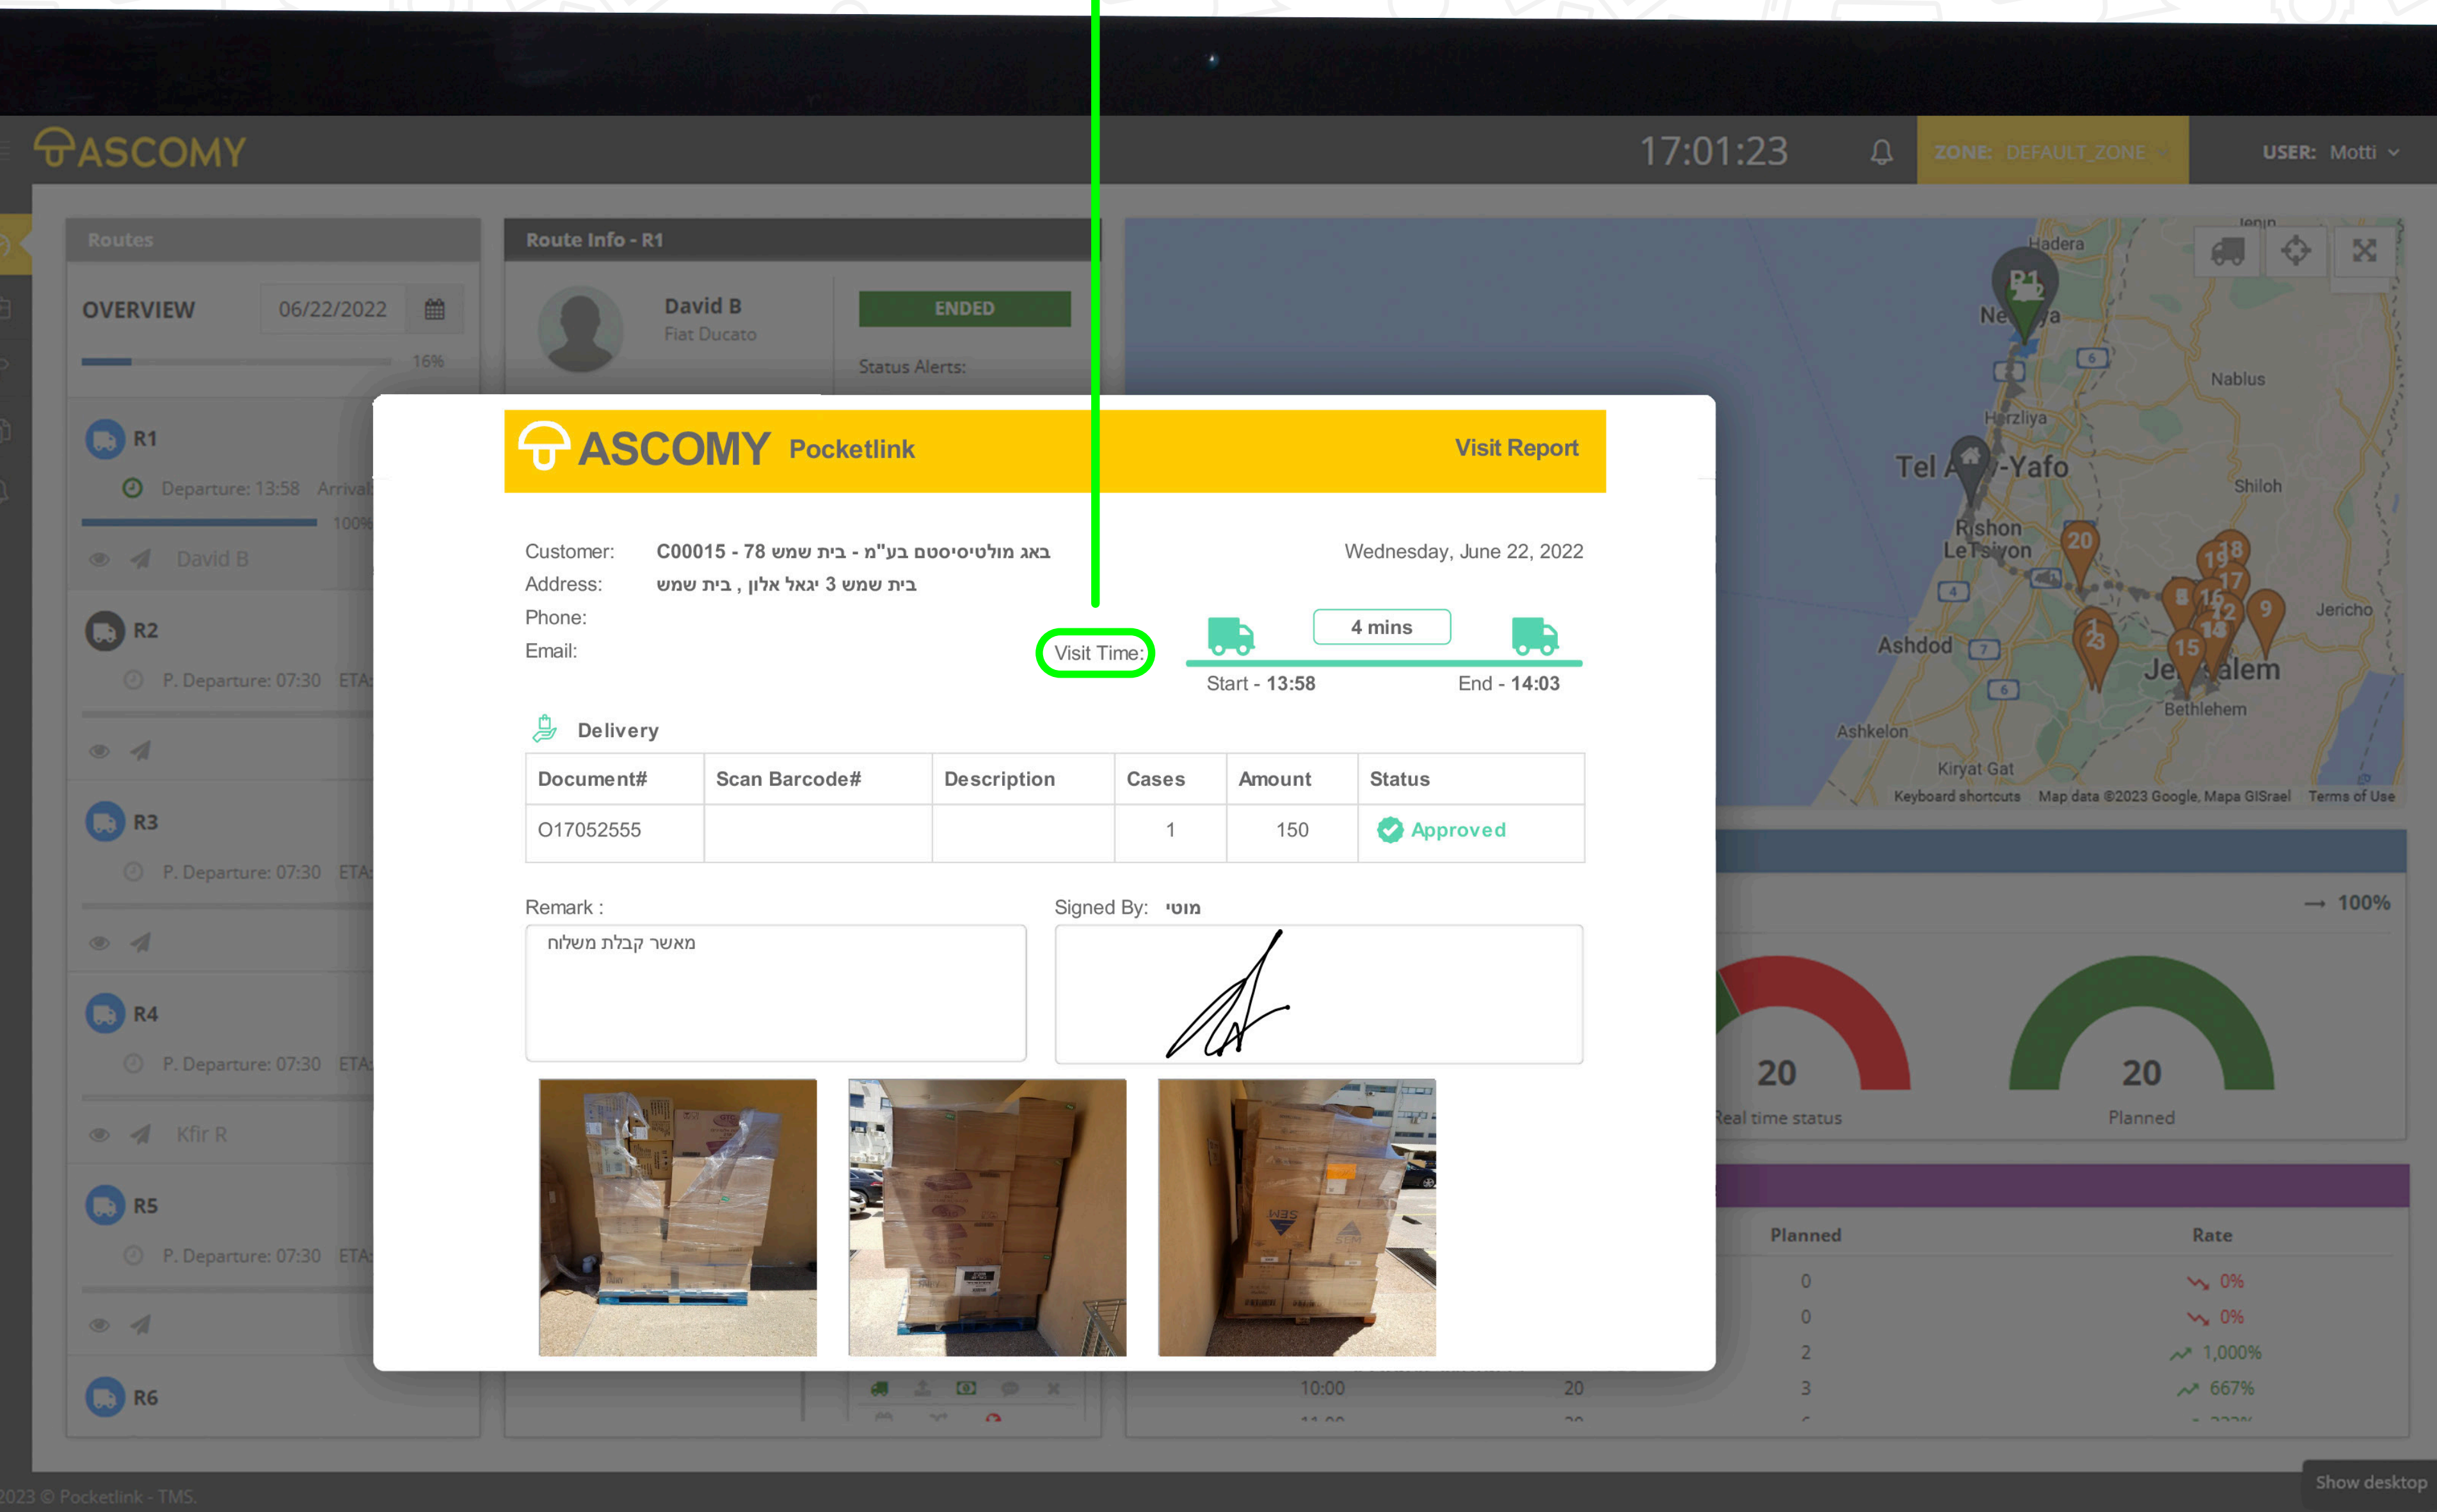

From now it is possible to attach the delivery document right by the delivery information. This allows the driver **to present the original document to the customer** prior to capturing the signature.

Delivery document is attached to the delivery information

From now it is possible to attach the delivery document right by the delivery information. This allows the driver to present the original document to the customer **prior to capturing the signature.**

All shipping information is available to you

View all the delivery details from wherever you are

Now it is possible to track the Proof of Delivery documents on the ASCOMY dashboard. Time stamps, customer signature, photos taken in the unloading process, and the original document attached to the delivery.

All the delivery details available for you

The screenshot shows the ASCOMY dashboard interface. On the left, there's a 'Routes' overview for 06/22/2022, listing routes R1 through R6. The main area shows 'Route Info - R1' for driver David B (Fiat Ducato), with a status of 'ENDED'. A modal window is open, displaying a bill to order for 'POCKETLINK SUPPLY CHAIN - LIVE!'. The bill includes contact information for Pocket Link USA, Inc., tax and identification numbers, and a table of services. The background shows a map of Israel and various dashboard metrics.
